| V. Financial Information .....                                                         | 57 |
| 1. Consolidated financial statements, etc. ....                                        | 57 |

Documents hereto titled “Annual Report” are based on the Company’s Annual Securities Report (Japanese only) prepared following the Financial Instruments and Exchange Act for the purpose of providing accurate financial information and other information in a manner that is easy to understand. In the event of any discrepancy between these translated documents and the Japanese originals, the originals shall prevail. The Company assumes no responsibility for this translation or for direct, indirect or any other forms of damages arising from the translations.

[NOTE: Basis of Presenting Consolidated Financial Statements]

The accompanying consolidated financial statements of Nintendo Co., Ltd. (the “Company”) and its consolidated subsidiaries are compiled from the consolidated financial statements prepared by the Company as required by the Financial Instruments and Exchange Act of Japan and are prepared on the basis of accounting principles and practices generally accepted in Japan, which are different in certain respects as to application and disclosure requirements of the International Financial Reporting Standards. The financial statements of the Company and its subsidiaries in Japan are prepared on the basis of the accounting and relevant legal requirements in Japan. The financial statements of consolidated subsidiaries outside of Japan are prepared on the basis of the accounting and relevant legal requirements of their countries of domicile and no adjustment has been made to their financial statements in consolidation to the extent that significant differences do not occur, as allowed under the generally accepted accounting principles and practices in Japan.

Each amount in the accompanying consolidated financial statements is rounded down to the nearest one million yen or one billion yen. Consequently, the totals shown in the accompanying consolidated financial statements do not necessarily agree with the sums of the individual amounts.

The consolidated financial statements presented herein are stated in Japanese yen, the currency of the country in which the Company is incorporated and operates. The rate of ¥159 to 1 USD, the approximate current rate of exchange on March 31, 2026, has been applied for the purpose of presentation of the accompanying consolidated financial statements in U.S. dollars. These amounts in U.S. dollars are included solely for convenience and are unaudited. These translations do not imply that the actual Japanese yen amounts have been or could be converted into U.S. dollars at this or any other rate of exchange.

The accompanying consolidated financial statements are not intended to present the consolidated financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in countries and jurisdictions other than Japan.

| Number of employees (persons)                                                            | 6,717      | 7,317      | 7,724      | 8,205      | 8,666      | -          |

- (Notes) 1. “Diluted profit per share” is not noted because the Company has not issued any dilutive shares.  
2. The Company enacted a 10-for-1 stock split of its common stock with an effective date of October 1, 2022. Net assets per share and profit per share are calculated based on the assumption that the stock split was implemented at the beginning of the 82nd fiscal year.  
3. Effective from the beginning of the 85th fiscal year (ended March 31, 2025), the Company has adopted the “Accounting Standard for Current Income Taxes, (Accounting Standards Board of Japan (ASBJ) Statement No. 27

of October 28, 2022),” etc. The accounting standard has been retrospectively applied to the “Key financial data” for the 84th fiscal year. The adoption of the accounting standard has no impact on the “Key financial data.”

## 2. History

|                |                                                                                                                                                                                                                |
|----------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| November 1947  | Established as Marufuku Co., Ltd. in Higashikawara-cho, Imagumano, Higashiyama-ku, Kyoto, Japan as a manufacturer/distributor of Japanese playing cards ( <i>karuta</i> ) and western playing cards.           |
| September 1949 | Changed the company's name to Marufuku Karuta Hanbai Co., Ltd.                                                                                                                                                 |
| March 1950     | Changed the company's name to Nintendo Karuta Co., Ltd. and took over <i>karuta</i> manufacturing operations of Yamauchi Nintendo & Co. (currently Yamauchi Co., Ltd.)                                         |
| July 1951      | Changed the company's name to Nintendo Playing Card Co., Ltd.                                                                                                                                                  |
| September 1959 | Moved the headquarters to 60 Kamitakamatsu-cho, Fukuine, Higashiyama-ku, Kyoto, Japan.                                                                                                                         |
| September 1961 | Established the Tokyo Branch in Tokyo, Japan.                                                                                                                                                                  |
| January 1962   | Listed stock on the Second Section of the Osaka Securities Exchange and on the Kyoto Stock Exchange.                                                                                                           |
| October 1963   | Changed the company's name to Nintendo Co., Ltd. (current trade name).                                                                                                                                         |
| July 1970      | Stock listing was changed to the First Section of the Osaka Securities Exchange.                                                                                                                               |
| April 1980     | Established a wholly-owned subsidiary, Nintendo of America Inc., in New York, U.S.A.                                                                                                                           |
| February 1982  | Established a new wholly-owned subsidiary, Nintendo of America Inc. (currently a consolidated subsidiary), in Washington, U.S.A. and merged the New York subsidiary into it through an absorption-type merger. |
| July 1983      | Listed stock on the First Section of the Tokyo Stock Exchange.                                                                                                                                                 |
| November 1983  | Established a new plant in Makishima-cho, Uji City, Kyoto, Japan (currently Uji Plant).                                                                                                                        |
| February 1990  | Established a wholly-owned subsidiary, Nintendo of Europe GmbH, in Germany (currently Nintendo of Europe SE, a consolidated subsidiary).                                                                       |
| November 2000  | Moved the headquarters to 11-1 Hokotate-cho, Kamitoba, Minami-ku, Kyoto, Japan (current location).                                                                                                             |
| July 2006      | Established a wholly-owned subsidiary, Nintendo of Korea Co., Ltd., in South Korea (currently a consolidated subsidiary).                                                                                      |
| June 2016      | Transitioned to a Company with an Audit and Supervisory Committee.                                                                                                                                             |
| April 2017     | Acquired shares of JESNET Co. Ltd. and changed its trade name to Nintendo Sales Co., Ltd. (currently a consolidated subsidiary).                                                                               |
| April 2022     | Transitioned to the Prime Market from the First Section due to the market restructuring of the Tokyo Stock Exchange.                                                                                           |

### 3. Description of business

In the field of home entertainment, Nintendo Co., Ltd. and its subsidiaries and associates (composed of 32 subsidiaries and four associates as of March 31, 2026), primarily engage in the development, manufacture and sales of entertainment products. ## II. Business Overview

### 1. Management policy, management environment, issues to address

Any forward-looking statements in the following discussion are based on the judgment of the Company group (the Company and its consolidated subsidiaries; also referred to as “Nintendo”) as of the end of the consolidated fiscal year ended March 31, 2026.

#### (1) Basic management policy

As an entertainment company that creates smiles, Nintendo strives to introduce new forms of entertainment while maintaining a robust corporate management. To expand our business, our highest emphasis is placed on providing consumers around the world with exciting forms of entertainment that they have never experienced before.

#### (2) Targeted management index

Nintendo works to constantly provide new and entertaining products and services, aiming to improve its corporate value by sustaining robust growth and increasing profit. Because Nintendo deals with entertainment products and content that naturally hold many uncertainties in terms of business operations, we have not set any specific management index targets. This allows our corporate decision-making to respond flexibly to the results of our initiatives and changes in the business environment.

#### (3) Management environment, mid- to long-term corporate business strategy and priority business and financial issues to address

The market environment surrounding the Company group continues to undergo rapid change, driven by the diversification of the entertainment consumers seek, advances in technology and the resulting intensification of competition.

Amid this market environment, the Company group aims to create reasons for consumers to choose Nintendo for unique, family-friendly entertainment by pursuing unique forms of fun while also providing entertainment that the entire family can enjoy together with peace of mind, and that fits perfectly in the center of the living room. To achieve this, Nintendo remains dedicated to thoroughly refining each product and service to ensure satisfaction, not only in our integrated hardware-software dedicated video game platforms, but also beyond video games in fields such as movies and videos, mobile apps, real-world experiences and character merchandise. By enriching our unique and original entertainment, we will create more reasons to choose Nintendo for unique, family-friendly entertainment.

All of these business activities are guided by two principles: “grow the Nintendo IP fanbase” and “foster long-term relationships with consumers.” Moreover, through the Nintendo Account program, we will further develop the connections created through these initiatives into ones that allow us to directly deliver Nintendo's unique and original entertainment, creating lasting relationships that span generations.

We launched our new dedicated video game system, Nintendo Switch 2, in June 2025. As the successor system to the widely adopted Nintendo Switch, Nintendo Switch 2 will build on that userbase, and we will continue to invigorate the business to bring enjoyment to more consumers worldwide. As part of these efforts, in addition to the continuous release of compelling software, we will prioritize strengthening our development structure to address the increasing complexity and longer development periods, cultivating talent and improving development efficiency. We will also conduct research and development and advertising activities, invest in business infrastructure, including capital investment, while maintaining financial soundness. Through these efforts, we aim to increase corporate value over the mid- to long-term.

2. Approach to and initiatives for sustainability

The Company group (the Company and its consolidated subsidiaries) is engaged in group-wide efforts to promote sustainability activities focused on the four sustainability priorities of Consumers, Supply Chain, Employees and Environment, with the goal of “putting smiles on the faces of everyone Nintendo touches.”

These priorities encompass improving product quality and ensuring product safety; creating an environment in which children can play with peace of mind; promoting CSR procurement through communication with our suppliers; building a work environment that enables our employees to fully realize their capabilities; and reducing the environmental impact of the Company group’s products and business activities. The Company group reviews the sustainability priorities each year and revises them as appropriate.

The forward-looking statements in this section are based on the judgment of the Company group as of March 31, 2026.

(1) Governance

To promote sustainability activities, the Company group has established the Sustainability Promotion Team to coordinate and support sustainability activities under the supervision of the Senior General Manager of the General Affairs Division, who is also an Executive Officer. The team leads efforts to promote sustainability initiatives in collaboration with the entire group.

To advance our sustainability activities globally, we have also established sustainability teams at our main subsidiaries outside of Japan. Information about the status of activities in each country is shared among companies within the group.

The Sustainability Promotion Team reports on the sustainability priorities, material topics and action plans to the Executive Management Committee, and carries out these activities based on the instructions received. The Board of Directors receives quarterly reports from the Sustainability Promotion Team on important matters concerning sustainability activities, including the sustainability priorities. The Board of Directors also reviews action plans and monitors progress.

## (2) Strategy

The initiatives undertaken to address each sustainability priority are as follows.

### (i) Consumers

In order to provide high-quality products that are both safe and entertaining so consumers can enjoy them with peace of mind, the Company group engages in a wide range of initiatives in development, production and after-sales service for our dedicated video game platforms and accessories. In addition, to ensure that consumers of all ages can enjoy Nintendo's game software and services with peace of mind, we strive to prioritize safety in game software development, create features that enable parents and guardians to check children's usage and eliminate inappropriate content in communication features, among other initiatives.

When consumers provide us with information, we clearly specify how we will use consumer information, such as in our privacy policy, and strictly handle this information in adherence with internal regulations. In addition, we revise and enhance our internal structure in compliance with the laws and standards related to the handling of information.

### (ii) Supply chain

We work with our numerous production partners in Japan and around the world to improve quality and technical capability, ensure safety and achieve production efficiency.

In addition, we have established basic procurement and business partner selection policies to promote production that complies with laws, regulations and social standards, while taking into account human rights and the global environment. We have also created these policies to build trust with our business partners so that we can fulfill our social responsibilities collaboratively. We also work with our business partners to gain their understanding of and cooperation with these policies. To facilitate these efforts, we have established the Nintendo CSR Procurement Guidelines and promote CSR procurement activities.

### (iii) Employees

Details of our policies and initiatives relating to human capital are presented in "IV. Profile of the Company, 5. Employees (1) Basic policies on Human Capital Strategy, etc. (i) Basic policies on Human Capital Strategy, etc."

### (iv) Environment

In response to society's expectations and to pass on a better environment to future generations, Nintendo exercises care with the environmental footprint of our offices — including the use of renewable energy and energy conservation activities — and embarks on various initiatives to reduce the environmental impact of our products. These initiatives span the design stage to post-sales repair and support and continue through to recycling. More specifically, we have implemented environmental measures at each stage from design to after-sales service, such as creating designs that consider energy and resource efficiency, selecting easy-to-recycle packaging materials, implementing efficient transportation and providing after-sale repairs and support. Regarding climate change, we have identified our risks and opportunities based on 1.5°C and 4.0°C global warming scenarios, evaluated the relevant financial impact and engaged in information disclosure in accordance with the recommendations of the Task Force on Climate-Related Financial Disclosures (TCFD). We will continue to work to address climate change.

## (3) Risk management

Taking into account international standards such as the GRI Standards and the social environment surrounding Nintendo, the Sustainability Coordination Team identifies sustainability issues together with the sustainability teams at our subsidiaries outside of Japan.

We analyze the degree of risk and opportunity and establish the priority level for the sustainability issues identified based on both their impact on society and their impact on Nintendo. Next, we obtain feedback from outside experts to select potential sustainability priorities. The Sustainability Coordination Team meets with the sustainability teams at our subsidiaries outside of Japan to exchange ideas and designate sustainability priorities. After reaching consensus on the results among the members of the Sustainability Promotion Team, including the sustainability teams of the subsidiaries outside of Japan, a report is provided to executive management to set the priority areas.

Regarding cybersecurity, which encompasses a wide range of areas, we treat the protection of consumer privacy and related areas as sustainability issues, but recognize cyberattacks on information systems as a business risk, and currently address them as broader technical and legal matters.

#### (4) Metrics and targets

Nintendo works to constantly provide new and entertaining products and services, aiming to improve our corporate value by sustaining robust growth and increasing profit. Because we deal with entertainment products and content that naturally hold many uncertainties in terms of business operations, we have not set any specific management index targets. This allows our corporate decision-making to stay flexible in light of the results of our initiatives and changes in the business environment.

Likewise, in addressing sustainability issues, we aim to achieve improvements by formulating and implementing annual plans, with the goal of consistently carrying out the planned activities to address each issue.

For human capital, we have established metrics to check the status of our efforts and facilitate the consideration of any improvements required. Details are presented in “IV. Profile of the Company, 5. Employees (1) Basic policies on Human Capital Strategy, etc, (i) Basic policies on Human Capital Strategy, etc.”

### 3. Risk factors

Listed below are the various risks that could affect operating results, share price and financial condition of the Company Group (the Company and its consolidated subsidiaries). However, unpredictable risks may exist other than the risks set forth herein. Note that matters pertaining to the future presented herein are determined by Nintendo as of the end of the fiscal year ended March 31, 2026.

#### (1) Risks around economic environment

- Fluctuation in foreign exchange rates

Nintendo distributes its products globally with sales outside of Japan accounting for more than 70% of its total sales, and the majority of monetary transactions are made in local currencies. In addition, the Company holds a substantial amount of assets in foreign currencies. Fluctuations in foreign exchange rates have a strong influence not only when accounts in foreign currencies are converted to yen-denominated assets but also when they are translated for financial reporting purposes. Therefore, if there are significant fluctuations in foreign exchange rates, Nintendo's financial position, operating results and cash flows could be adversely affected.

In order to reduce the influence of fluctuations in foreign exchange rates, Nintendo purchases in foreign currencies on an ongoing basis.

#### (2) Risks around business activities

- Fluctuation of market environment and competition with other companies

Nintendo's core business is engaged in one segment of the broader entertainment field. However, its business is also affected by a variety of other entertainment trends. If consumer preferences shift to other forms of entertainment, the video game market may contract. The emergence of new competitors resulting from technological innovation could have a significant impact as well. In the video game industry, it may become even more difficult to be profitable due to large investments required in research and development and marketing. In addition, competition may intensify with large-scale companies doing business in the same industry or in other segments of the entertainment industry. Furthermore, if Nintendo is unable to adapt to rapid structural changes or other changes, its financial position, operating results and cash flows could be adversely affected.

Nintendo is dedicated to thoroughly refining each product and service. By working to help foster an enduring fondness for Nintendo characters and worlds, it hopes to become a beloved part of people's lives across generations and create more reasons to choose Nintendo for unique, family-friendly entertainment.

- Development of new products, etc.

Despite the substantial costs and time needed for the planning and development of software for dedicated video game platforms, applications for smart-device gaming services and movies and videos, there is no guarantee that all new products and services will be accepted by consumers due to ever shifting preferences. As development of hardware is time-consuming, with technology continuously advancing, Nintendo may not be able to readily acquire technologies required for entertainment. Furthermore, delays of product launches could adversely affect market share.

In addition, due to the nature of Nintendo products and services, it may be difficult to develop products and services as planned in some cases, making it impossible to sell or launch the products and services as planned. Moreover, development may be suspended or aborted, and the original plan could differ to a large extent.

In the field of entertainment, the development process is complicated and includes many uncertainties; therefore, if Nintendo is unable to deal with the above risks, its financial position, operating results and cash flows could be adversely affected.

Nintendo continuously strives to develop unique and attractive new products.

- Product valuation and adequate inventory procurement

Given that general products in the video game industry have relatively short life cycles, and are significantly impacted by consumer preferences as well as seasonality, excess inventory and obsolete inventory could have an adverse effect on Nintendo's financial position, operating results and cash flows.

Business opportunities could be missed if supply to the market falls short of the necessary quantity due to difficulties in accurately forecasting demand. At Nintendo, production is implemented based on forecasts and downloadable versions of software are promoted in order to ensure that supply meets demand.

- Dependency on outside manufacturers

Nintendo commissions outside companies to produce key components and assemble finished products. In the event one or more of these outside companies go bankrupt, Nintendo may have difficulty procuring key

components or manufacturing its products. In addition, suppliers may be unable to provide necessary components on a timely basis. A shortage of key components could cause issues such as decline in profit margins due to higher costs, product shortages and quality control issues. These issues may impair the relationship between Nintendo and consumers. Furthermore, as many suppliers' production facilities are located outside Japan, a decline in local public safety, natural disasters, epidemics or other issues specific to the area could interrupt production and Nintendo's operating performance could be adversely affected.

Regarding production, Nintendo hedges risks by procuring parts and materials from and outsourcing production to multiple companies in most cases. For important components, we have identified all processes, places of production, persons in charge, etc. and have a management system in place which, even in the unlikely event of an unforeseeable incident, will enable us to get a grasp of the status of damage caused by the accident and take an alternative action as swiftly as possible.

- Business operations affected by seasonal fluctuation

Demand for Nintendo's products is largely focused on the year-end sales season, New Year season, etc., so our business performance fluctuates accordingly. Should Nintendo fail to release attractive new products or supply products on time during that period, operating performance could be adversely affected.

Nintendo strives to achieve stable performance throughout the year through measures such as developing games that consumers will continue to play long after they are released and providing paid services in its digital business that can be enjoyed on a continuing basis.

- System issues

Nintendo provides various services via the internet, including online games and download sales of digital software, in addition to providing information. However, in the event of the termination or destruction of the operating systems, or the leakage or unauthorized use of data, etc. as a result of a cyber-attack against servers, a natural disaster or an accident, it could lead to suspension of business activities, and the Company's future operating results, brand reputation, share price and financial condition could be adversely affected.

Considering that network functions are becoming increasingly important in the Company's business, Nintendo is enhancing assigned in-house resources, hiring necessary human resources, collaborating with outside expert firms and making other such efforts to strengthen its capabilities to deal with system issues.

- Various factors affecting business activities

Nintendo develops its business globally. Business activities in Japan and outside of Japan involve risks such as disadvantages from emergence of political or economic factors, disadvantages from inconsistency of multilateral taxation systems and diversity of tax law interpretation, difficulty in recruiting and securing human resources, labor disputes such as strikes, and social disruption resulting from terror attacks, war and other catastrophic events. If the planning, development, manufacturing, distribution, sales, etc. of products and services are hindered, Nintendo's financial position, operating results and cash flows could be adversely affected. Nintendo will take necessary measures on an ongoing basis.

### (3) Risks around legal regulations and litigation

- Product liability

Nintendo develops and manufactures its products in accordance with applicable safety and quality control standards in locations of sale. However, large-scale product recalls may take place should a defect occur, given that its products are sold worldwide. Also, a product defect resulting in product liability compensation could lead to additional expenses and impact the Company's brand reputation, and its future operating performance and financial position could be adversely affected.

With full awareness of product liability, Nintendo will continue to proactively work on quality control and quality assurance of products in terms of design, manufacturing and ancillary services.

- Limitations of enforcing intellectual property rights

Although Nintendo has continued to accumulate various intellectual properties which enable the differentiation of its offerings from others, there are geographical regions in which it is difficult to effectively address unauthorized uploading via the internet and counterfeit products, and its future operating performance and financial position could be adversely affected.

Nintendo will take necessary measures on an ongoing basis.

- Unauthorized system access and leakage of confidential information

Nintendo possesses personal information about its consumers, as well as confidential information concerning development and business operations. If this information were ever leaked outside of Nintendo or used improperly by third parties due to unauthorized access to systems, etc., the Company's future operating results,

brand reputation, share price and financial condition could be adversely affected.  
Nintendo will take necessary measures on an ongoing basis.

- Changes in laws and regulations, etc.  
Unpredicted enactment of or changes in laws and regulations, as well as adoptions of or changes in accounting standards or taxation systems could have an adverse effect on Nintendo's performance and financial position. In addition, conflict of views between Nintendo and the tax authorities regarding tax returns may result in additional tax expenses.  
Nintendo keeps up to date with information released by government agencies and other external organizations through websites, etc. In addition, Nintendo collects information by participating in seminars hosted by external organizations and subscribing to specialized journals, etc. and conducts various studies in the lead-up to the implementation of changes in laws and regulations, etc.
- Litigation, etc.  
Nintendo's operations in Japan and outside of Japan may be subject to litigation, disputes and other legal procedures, which could adversely affect Nintendo's operating performance and financial position.  
Nintendo is taking various measures to reduce the risk of litigation.

#### (4) Other risks

Other than the risks set forth above, factors such as uncollectible notes and accounts receivable - trade, collapse of financial institutions, environmental regulations, impairment of the corporate brand due to unforeseen circumstances, changes in the political situation, rapid climate change, natural disasters or epidemics could adversely affect Nintendo's operating performance and financial position.  
Nintendo will take necessary measures on an ongoing basis.

## 4. Analysis of financial position, operating results and cash flow by management

The description of the financial position, operating results and cash flow of Nintendo (the Company and its consolidated subsidiaries) in the fiscal year ended March 31, 2026 (“operating results, etc.”) and the understanding, analysis and examination of Nintendo’s operating results, etc. from the management’s viewpoint are as follows.

Any forward-looking statements contained in the following overview are made based on information available as of the end of the fiscal year ended March 31, 2026.

Segment information is omitted as Nintendo operates as a single business segment.

### (1) Assumptions used in important accounting procedures and estimates

Consolidated financial statements of Nintendo are prepared in accordance with accounting standards generally accepted in Japan. In preparing such statements, estimates that may affect the value of assets, liabilities, revenue and expenses are made based on the accounting procedures selected and adopted by management. Management makes appropriate assumptions based on factors such as past performance and the likelihood of future occurrences to make reasonable estimates. However, due to inherent uncertainties, the actual results may differ from these estimates. Significant accounting estimates and assumptions adopted in the consolidated financial statements of Nintendo are detailed in the section “V. Financial Information, 1. Consolidated financial statements, etc., Notes to Consolidated Financial Statements (Significant accounting estimates).”

### (2) Operating results, etc.

#### (i) Description and analysis of results

In the fiscal year ended March 31, 2026, Nintendo Switch 2 got off to a good start following its launch in June 2025 and global sales continued to grow after that. The March release of *Pokémon Pokopia* (see note) was a factor in driving further hardware sales toward the end of the fiscal year, helping sales volume reach 19.86 million units for the full term. Looking at software, *Mario Kart World*, which was released on the same day as the hardware, sold 14.70 million units, including bundle sales, and *Donkey Kong Bananza*, released in July, sold 4.52 million units. *Pokémon Legends: Z-A– Nintendo Switch 2 Edition*, released in October, sold 3.94 million units of the packaged version. Unit sales of the downloadable versions of this title and other Nintendo Switch 2 Edition titles are counted in the sales of Nintendo Switch software. Nintendo Switch 2 software unit sales for the fiscal year reached 48.71 million units.

Hardware sales for Nintendo Switch totaled 3.80 million units, demonstrating a level of continued demand for the system, which entered its 10th year since launch in March. Looking at software, *Pokémon Legends: Z-A* posted sales of 8.85 million units, including sales of the downloadable version of *Pokémon Legends: Z-A– Nintendo Switch 2 Edition*, while *Super Mario Galaxy 2*, released in October, sold 2.76 million units, and *Super Mario Galaxy*, also released in October, sold 2.60 million units.

Given that consumers can play both Nintendo Switch 2 exclusive software and Nintendo Switch software with Nintendo Switch 2, titles such as *Mario Kart 8 Deluxe* and *Nintendo Switch Sports*, which were released for Nintendo Switch in previous fiscal years, have also shown stable sales. Also posting stable sales were evergreen titles with Nintendo Switch 2 Editions such as *Super Mario Party Jamboree* and *Animal Crossing: New Horizons*. Bolstered by these kinds of factors, Nintendo Switch software sales totaled 136.91 million units.

Turning to the digital business for our dedicated video game platforms, digital sales totaled ¥407.6 billion (USD 2,563 million), up 25.0% year-on-year, mainly due to an increase in sales of downloadable versions of packaged software.

In our IP related business, sales totaled ¥73.5 billion (USD 462 million), down 9.7% year-on-year, mainly due to a decrease in movie-related revenue.

Nintendo’s management policy, management strategy, etc. are as described in “II. Business Overview, 1. Management policy, management environment, issues to address.” The presence or lack of hit products and their sales volumes are deemed to have a significant impact on operating results, etc., as described in “II. Business Overview, 4. Analysis of financial position, operating results and cash flow by the management, (4) Factors which have a significant impact on operating results, etc.”

Note: This title is released and sold by The Pokémon Company in Japan, and by Nintendo outside of Japan.

(ii) Description and analysis of operating results

Net sales, operating profit, ordinary profit and profit attributable to owners of parent in the fiscal year ended March 31, 2026 increased from the previous fiscal year.

Net sales reached ¥2,313.0 billion (USD 14,547 million; an increase of 98.6% year-on-year), of which sales outside of Japan were ¥1,778.1 billion (USD 11,183 million; an increase of 99.8% year-on-year, and 76.9% of total sales). Operating profit came to ¥360.1 billion (USD 2,264 million; an increase of 27.5% year-on-year) and ordinary profit was ¥542.1 billion (USD 3,409 million; an increase of 45.6% year-on-year), mainly due to an increase in share of profit of entities accounted for using equity method. Profit attributable to owners of parent totaled ¥424.0 billion (USD 2,666 million; an increase of 52.1% year-on-year).

(Net sales and operating profit)

Net sales increased from the previous fiscal year by ¥1,148.1 billion (USD 7,220 million) to ¥2,313.0 billion (USD 14,547 million; an increase of 98.6% year-on-year). Gross profit increased from the previous fiscal year by ¥198.7 billion (USD 1,249 million) to ¥908.9 billion (USD 5,716 million; an increase of 28.0% year-on-year). Selling, general and administrative expenses increased from the previous fiscal year by ¥121.2 billion (USD 762 million), mainly due to an increase in research and development expenses and advertising expenses, resulting in an operating profit of ¥360.1 billion (USD 2,264 million; an increase of 27.5% year-on-year).

(Non-operating income and expenses, and ordinary profit)

Net non-operating income was ¥182.0 billion (USD 1,144 million), mainly due to the share of profit of entities accounted for using equity method for The Pokémon Company, as well as interest income and foreign exchange gains. As a result, ordinary profit was ¥542.1 billion (USD 3,409 million; an increase of 45.6% year-on-year).

(Profit attributable to owners of parent)

Profit attributable to owners of parent was ¥424.0 billion (USD 2,666 million; an increase of 52.1% year-on-year), mainly due to the increase in ordinary profit from the previous fiscal year.

(iii) Description and analysis of financial position

(Total assets)

Total assets increased by ¥406.7 billion (USD 2,557 million) compared to the previous fiscal year-end to ¥3,805.3 billion (USD 23,932 million).

This was mainly due to increases in cash and deposits and notes and accounts receivable-trade, despite a decrease in securities and others.

(Total liabilities)

Total liabilities increased by ¥177.0 billion (USD 1,113 million) compared to the previous fiscal year-end to ¥850.1 billion (USD 5,346 million).

This was mainly due to increases in notes and accounts payable-trade and income taxes payable.

(Net assets)

Net assets increased by ¥229.7 billion (USD 1,444 million) compared to the previous fiscal year-end to ¥2,955.1 billion (USD 18,585 million).

This was mainly due to an increase in retained earnings.

(iv) Description and analysis of cash flows

The ending balance of “Cash and cash equivalents” (collectively, “Cash”) as of March 31, 2026 was ¥1,316.6 billion (USD 8,280 million), with a decrease of ¥97.4 billion (USD 612 million) during the fiscal year. During the previous fiscal year, there was an increase of ¥560.6 billion (USD 3,525 million). Net increase (decrease) of Cash and contributing factors during the fiscal year ended March 31, 2026 are as follows:

(Cash flows from operating activities)

There were decreasing factors to profit before income taxes of ¥568.1 billion (USD 3,572 million), such as payments of income taxes, recognition of share of profit of entities accounted for using equity method, and an increase in trade receivables, which resulted in an increase of ¥289.7 billion (USD 1,822 million), compared to an increase of ¥12.0 billion (USD 75 million) during the previous fiscal year.

(Cash flows from investing activities)

Cash from investing activities decreased by ¥210.0 billion (USD 1,320 million) compared to an increase of ¥753.0 billion (USD 4,735 million) during the previous fiscal year, mainly due to payments into time deposits and purchase of short-term and long-term investment securities, being higher than proceeds from withdrawal of time deposits and proceeds from sale and redemption of short-term and long-term investment securities.

(Cash flows from financing activities)

Cash from financing activities decreased by ¥249.7 billion (USD 1,570 million) compared to a decrease of ¥195.1 billion (USD 1,227 million) during the previous fiscal year mainly due to payments of cash dividends and purchase of treasury shares.

(3) Production, orders received and sales information

(i) Production results

Production results in the fiscal year ended March 31, 2026 were as follows. As Nintendo operates as a single business segment, the information is presented by product type.

| Type                          | Amount            |                       | Year-on-year increase (decrease)<br>(%) |
|-------------------------------|-------------------|-----------------------|-----------------------------------------|
|                               | (millions of yen) | (millions of dollars) |                                         |
| Dedicated video game platform | 1,919,326         | 12,071                | 98.4                                    |
| Others                        | 8,941             | 56                    | (37.7)                                  |
| Total                         | 1,928,268         | 12,127                | 96.4                                    |

(Note) The above amounts are calculated based on the selling price.

(ii) Order-receiving status

Information on orders received is omitted as production is based on make-to-stock production, other than make-to-order production mainly for some software for dedicated video game platforms.

(iii) Sales results

Sales results in the fiscal year ended March 31, 2026 were as follows. As Nintendo operates as a single business segment, the information is presented by product type.

| Type                          | Amount            |                       | Year-on-year increase (decrease)<br>(%) |
|-------------------------------|-------------------|-----------------------|-----------------------------------------|
|                               | (millions of yen) | (millions of dollars) |                                         |
| Dedicated video game platform | 2,239,541         | 14,085                | 106.7                                   |
| IP related income, etc.       | 73,510            | 462                   | (9.7)                                   |
| Total                         | 2,313,051         | 14,547                | 98.6                                    |

(4) Factors which have a significant impact on operating results, etc.

Nintendo operates as a business in the field of home entertainment, in which the presence or lack of hit products and their sales volumes may have a significant impact on its operating results, etc. In addition, the field of entertainment is wide in scope, and any non-gaming propositions which gain popularity that provide consumers with more entertainment value and surprises may also have an impact.

More than 70% of Nintendo's total sales are generated in markets outside of Japan, with most transactions carried out in local currencies. While Nintendo makes purchases denominated in U.S. dollars and other currencies on an ongoing basis in order to reduce the impact of exchange rate fluctuations, it is difficult to completely eliminate the related risk. As a result, exchange rate fluctuations may have an impact on Nintendo's financial performance.

While dedicated video game platforms and their compatible software, which are Nintendo's main products, represent a majority of total sales, hardware and software have very different profit margins, and fluctuations of their proportions of the total sales may have an impact on gross profit and the gross profit percentage to sales.

In addition, there may be other fluctuating factors as described in "II. Business Overview, 3. Risk factors."

(5) Financial source of capital and liquidity of funds

As of the end of the consolidated fiscal year ended March 31, 2026, the current ratio is 396%, and the ratio of total liabilities to cash and cash equivalents is 1.5 times.

Nintendo maintains retained earnings that are necessary in order to adapt to changes in the business environment and to pursue further business expansion, etc. in the future.

Major components of the working capital requirements include purchase expenses of materials and parts for manufacturing, advertising expenses and research and development expenses, and dividend and income tax payments. Moreover, it is Nintendo's basic policy to internally provide the capital necessary to fund future growth, including capital investments. Nintendo ensures self-financing by cash flows from operating activities including sales of dedicated video game platforms, etc. Nintendo's approach to shareholder returns is as explained in "IV. Profile of the Company, 3. Dividend policy" and specific plans for capital investments are as described in "III. Equipment and Facilities, 3. Plans for new installation and retirement of equipment and facilities, etc."

During the launch periods of new products and the year-end sales season, there may be temporary increases in notes and accounts receivable-trade, notes and accounts payable-trade and inventories, which may have an upward or downward impact on net cash provided by or used in operating activities.

Payments into or withdrawals from time deposits with maturities of more than three months, as well as timing of acquisition or sale of short-term investment securities, may have an upward or downward impact on net cash provided by or used in investing activities.

**5. Material contracts, etc.**

Not applicable.

## 6. Research and development activities

Nintendo (the Company and its consolidated subsidiaries) primarily engages in the active development of hardware and software for dedicated video game systems, with support from various companies and organizations, in its effort to put smiles on the faces of everyone Nintendo touches around the world by offering Nintendo's unique, family-friendly entertainment full of new surprises and fun. We also utilize Nintendo IP, focusing on the production of products such as those related to amiibo and movies and videos, and undertake the planning, development and operation of games that many people around the world can enjoy in the form of smart-device applications.

With respect to hardware, we continuously investigate and undertake research on underlying technologies spanning data storage technology such as semiconductor memory, display technology such as liquid crystal displays, and electronic components. We also carry out research and development activities to examine the applicability of various technologies to the field of home entertainment including interfaces such as touch panels and sensors, networks such as those for wireless communication, security, cloud computing, virtual reality (VR), augmented reality (AR) and mixed reality (MR), deep learning and big data analysis. Our efforts are not limited to in-house studies and research and we are also exploring various possibilities on a daily basis to discover technologies that will help create new ways to play by proactively turning our attention outside Nintendo. Moreover, we continue to enhance the durability, safety, quality and performance of our products to ensure that consumers can comfortably enjoy them over an extended period, in addition to designing and developing various accessories and pursuing cost-cutting initiatives.

With respect to software, we take full advantage of hardware features in planning our products and focus on game design and program development that leverages graphics, music and game scripts.

Furthermore, in order to enable digital business expansion, we have strongly driven the expansion of system infrastructure that supports network services in multiple areas, including the various network features of each software title and Nintendo eShop. In addition, we have established a research and development structure for smart-device software and promote the planning and development of smart-device applications and the development of a back-end server system.

Regarding our parts procurement and manufacturing processes, in addition to introducing new testing methods and promoting the mass production of parts that employ new technologies, we also research and accumulate knowledge pertaining to relevant laws and regulations with the cooperation and support of our manufacturing partners.

Research and development expenses for the fiscal year were ¥177.8 billion (USD 1,118 million), with the outcomes of major research and development activities described below. Segment information is omitted since we operate as a single business segment.

We launched our new video game system, Nintendo Switch 2, in June 2025. Nintendo Switch 2 is the successor to Nintendo Switch and offers improved processing and graphics performance. It also features the Joy-Con 2 controllers, which enable a new control method similar to a mouse, allowing for more varied gameplay and expression than ever before. In terms of Nintendo Switch 2 hardware, we introduced post-launch firmware updates to improve convenience and operational stability, along with continuous improvements to the software development environment and various network services. For compatible software, we have released Nintendo Switch 2 exclusive titles such as *Mario Kart World*, the latest installment in the Mario Kart series, which supports multiplayer races for up to 24 players, and *Drag x Drive*, which enables intuitive control using the Joy-Con 2 controllers' mouse functionality, as well as *Donkey Kong Bananza*, *Kirby Air Riders*, and *Mario Tennis Fever*. We also released *Nintendo Switch 2 Edition* versions of Nintendo Switch software with newly added gameplay and elements unique to Nintendo Switch 2, including *The Legend of Zelda: Breath of the Wild – Nintendo Switch 2 Edition*, *The Legend of Zelda: Tears of the Kingdom – Nintendo Switch 2 Edition*, *Animal Crossing: New Horizons – Nintendo Switch 2 Edition*, and *Metroid Prime 4: Beyond – Nintendo Switch 2 Edition*.

For Nintendo Switch hardware, we introduced firmware updates to enhance convenience and operational stability and made ongoing improvements to the software development environment and various network services. As for compatible software, we released *Super Mario Galaxy + Super Mario Galaxy 2*, which bundles *Super Mario Galaxy* and *Super Mario Galaxy 2* originally released on Wii, and enhances ease of play with features such as an autosave function and gameplay assistance.

In our mobile business, we run services on an ongoing basis for game applications such as *Fire Emblem Heroes*, *Pikmin Bloom* and *Mario Kart Tour*.

For Nintendo Switch Online, a service that enables consumers to enjoy online play, classic games and various other services on Nintendo Switch and Nintendo Switch 2, we added more titles to Nintendo Entertainment System - Nintendo Classics, Super Nintendo Entertainment System - Nintendo Classics and other services. We also continued reviewing the specifications for the various services based on Nintendo Account and making ongoing improvements.

In addition to the above, we released *Talking Flower*, a product modeled on the talking flower that appears in *Super Mario Bros. Wonder*, as well as a series of products for young children featuring a Mario theme, called My Mario.

On Nintendo Developer Portal, a dedicated website for game creators working on Nintendo platforms, we offer ongoing support for both development companies and individual developers to deliver new entertainment to consumers around the world.

On top of these efforts, Nintendo continues to engage in the development of various products and services for the future.

### III. Equipment and Facilities

#### 1. Overview of capital investments

Nintendo (the Company and its consolidated subsidiaries) primarily engages in the development, manufacturing and sales of entertainment products, and in the fiscal year ended March 31, 2026, it invested ¥49,293 million (USD 310 million), which was mainly used for research and development facilities, and included intangible assets such as computer software for internal use.

Regarding the required funds, all of the capital investments were self-financed and we did not raise external financing. Segment information is omitted as Nintendo operates as a single business segment.

#### 2. Major facilities

Major facilities are as follows. As Nintendo (the Company and its consolidated subsidiaries) operates as a single business segment, the information is presented on a per business basis.

##### (1) Reporting company

- (Notes) 1. Book value of “Other” represents book value of construction in progress and intangible assets.
2. The above amounts include right-of-use assets.

## 3. Plans for new installation and retirement of equipment and facilities, etc.

Plans for the installation of new equipment and facilities, etc. are as follows. There are no plans for retirement/sale of major equipment and facilities, excluding retirement/sale for the purpose of regular renewal. Segment information is omitted as Nintendo operates as a single business segment. Actual capital investments by Nintendo may vary significantly from the forecasts below due to factors including those stated in “II. Business Overview, 3. Risk factors.”

| Name of company                                      | Description of equipment and facilities             | Planned investment amount               | Month/year of commencement | Month/year of scheduled completion |
|------------------------------------------------------|-----------------------------------------------------|-----------------------------------------|----------------------------|------------------------------------|
| Nintendo Co., Ltd. and its consolidated subsidiaries | Research and development facilities                 | 58,000 million yen (USD 364 million)    | April 2025                 | March 2028                         |
| Nintendo Co., Ltd. and its consolidated subsidiaries | Production facilities for molds, etc.               | 5,000 million yen (USD 31 million)      | April 2025                 | March 2028                         |
| Nintendo Co., Ltd.                                   | Technology Development Center                       | 121,000 million yen (USD 761 million)   | December 2025              | March 2029                         |
| Nintendo Co., Ltd. and its consolidated subsidiaries | Renovation, updating, etc. of other buildings, etc. | 46,000 million yen (USD 289 million)    | April 2025                 | March 2028                         |
| Total                                                |                                                     | 230,000 million yen (USD 1,446 million) | -                          | -                                  |

(Note) Funds required for equipment and facilities, etc. in the future referred to above are to be self-financed.

## IV. Profile of the Company

### 1. Status of shares and other relevant matters

#### (1) Total number of shares and other information

##### (i) Total number of shares

| Class         | Total number of shares authorized to be issued (shares) |
|---------------|---------------------------------------------------------|
| Common shares | 4,000,000,000                                           |
| Total         | 4,000,000,000                                           |

##### (ii) Number of shares issued

| Class         | Number of shares outstanding as of the end of fiscal year (March 31, 2026) | Number of shares outstanding as of issuance date of this report (June 25, 2026) | Name of stock exchange on which Nintendo is listed or name of authorized financial instruments firm association | Description                                      |
|---------------|----------------------------------------------------------------------------|---------------------------------------------------------------------------------|-----------------------------------------------------------------------------------------------------------------|--------------------------------------------------|
| Common shares | 1,287,260,000                                                              | 1,287,260,000                                                                   | Tokyo Stock Exchange Prime Market                                                                               | Number of shares constituting a unit: 100 shares |
| Total         | 1,287,260,000                                                              | 1,287,260,000                                                                   | -                                                                                                               | -                                                |

#### (2) Status of share subscription rights and other relevant matters

##### (i) Description of stock option scheme

Not applicable.

##### (ii) Description of rights plans

Not applicable.

##### (iii) Other matters regarding status of share subscription rights, etc.

Not applicable.

#### (3) Exercise status and other relevant matters concerning bonds with share subscription rights containing a clause for exercise price adjustment

Not applicable.

(4) Trend of total number of shares issued, amount of common shares and other relevant matters

| Date                  | Change in the number of shares issued (thousands of shares) | Balance of the number of shares issued (thousands of shares) | Change in share capital (millions of yen) | Balance of share capital (millions of yen) | Change in legal capital surplus (millions of yen) | Balance of legal capital surplus (millions of yen) |

(Notes) 1. The Company's 1,344,312 hundred treasury shares are excluded from the above table.

2. Although the Statement of Changes made available for public inspection dated November 6, 2023 states that the following shares are held by BlackRock Japan Co., Ltd. and its joint holders as of October 31, 2023, the above status of major shareholders is based on the shareholder registry, as the Company could not confirm the actual number of shares held as of March 31, 2026.

The Company cancelled treasury shares effective March 31, 2026, decreasing the total number of shares issued by 114,300 hundred shares to 12,872,600 hundred shares. The shareholding ratios shown on Statements of Large-Volume Holdings (Statements of Changes) submitted before that date represent the ratios before the cancellation of treasury shares.

| Number of treasury shares held                                                                                                 | 134,431,295                      | -                                        | 134,431,348                              | -                                        |

(Note) The number of treasury shares held during the period from April 1 to May 31, 2026 does not include shares less than one full unit purchased or sold during the period from June 1, 2026 to the submission date of the Company's Annual Securities Report.

### 3. Dividend policy

It is the Company's basic policy to internally provide the capital necessary to fund future growth, including capital investments, and to maintain a strong and liquid financial position in preparation for changes in the business environment and intensified competition. As for direct profit returns to our shareholders, dividends are paid based on profit levels achieved in each fiscal period.

It is the Company's basic policy to distribute the surplus twice per year in the form of an interim dividend and a year-end dividend. The Articles of Incorporation of the Company stipulate that the Company "may pay an interim dividend based on a resolution approved by the Board of Directors" pursuant to the provisions of Article 454, item 5 of the Companies Act. The governing bodies which determine the interim dividend and year-end dividend are the Board of Directors and the General Meeting of Shareholders, respectively.

The annual dividend per share will be established at the higher of the amount calculated by using 40% of consolidated operating profit as the basis for the total dividend amount and dividing it by the total number of outstanding shares, excluding treasury shares, as of the end of the fiscal year rounded up to the nearest yen, and the amount calculated based on a consolidated dividend payout ratio of 60% rounded up to the nearest yen.

The interim dividend per share will be established by using 40% of consolidated operating profit for the six-month period as the basis for the total interim amount and dividing it by the total number of outstanding shares, excluding treasury shares, as of the end of the six-month period rounded up to the nearest yen.

Taking into consideration the current business environment and financial position of the Company group, and in order to strengthen our profit return to shareholders, the Company has revised its dividend policy effective from the year-end dividend for the fiscal year ended March 31, 2026. The interim dividend for the fiscal year ended March 31, 2026 was based on the dividend policy prior to the change, using 33% of the consolidated operating profit for the interim period as the basis for the total amount of interim dividend. As a result, the dividends per share for the fiscal year ended March 31, 2026 were an interim dividend of ¥42 (USD 0.26) and a year-end dividend of ¥177 (USD 1.11).

Retained earnings are maintained for effective use in research of new technology and development of new products and services, capital investments and securing materials, enhancement of selling power including advertisements, strengthening of network infrastructure and treasury share buyback whenever deemed appropriate.

(Note) Dividend payments for which the record date is in the fiscal year ended March 31, 2026 are as follows.

| Date of resolution                                                                  | Total amount of dividend<br>(millions of yen) | Dividend per share<br>(yen) |

## 4. Corporate governance

### (1) Outline of corporate governance

#### (i) Basic views on corporate governance

At Nintendo, we strive to maximize long-term, continuous corporate value while carefully considering the benefits for everyone we touch, including not only shareholders but also consumers, business partners, employees, local communities and other stakeholders. We are working to build a highly transparent and sound system of corporate governance, as well as improve our corporate ethics.

#### (ii) Outline of corporate governance system and reason for adoption of such system

The Company aims to strengthen the supervisory functions of the Board of Directors and further enhance the corporate governance system of the Company as a Company with an Audit and Supervisory Committee. The Company has also introduced the Executive Officer System for the purpose of clarifying the responsibility for the execution of operations and establishing a more flexible management structure which can appropriately and swiftly respond to the rapidly changing business environment. The foregoing will be enabled by separating the management decision-making and supervisory functions from the execution of operations as well as by accelerating the delegation of authority to execute operations.

The Company's corporate governance system as of June 25, 2026 (the submission date of the Company's Annual Securities Report) is as shown below.

#### (Board of Directors)

The Board of Directors consists of fourteen Directors (including five Directors who are Audit and Supervisory Committee Members), of whom seven are Outside Directors (including four Directors who are Audit and Supervisory Committee Members). The Board of Directors holds meetings once a month in principle and deliberates important matters related to management in accordance with laws and regulations, etc. as the body in charge of management decision-making and supervision.

Board members: Board chairperson Shuntaro Furukawa, President and Representative Director; Shigeru Miyamoto, Representative Director; Shinya Takahashi, Corporate Director; Satoru Shibata, Corporate Director; Ko Shiota, Corporate Director; Yusuke Beppu, Corporate Director; Chris Meledandri, Outside Director; Miyoko Demay, Outside Director; Kazuhiko Hachiya, Outside Director; Takuya Yoshimura, Corporate Director (Full-Time Audit and Supervisory Committee Member); Katsuhiro Umeyama, Outside Director (Audit and Supervisory Committee Member); Asa Shinkawa, Outside Director (Audit and Supervisory Committee Member); Eiko Osawa, Outside Director (Audit and Supervisory Committee Member); and Keiko Akashi, Outside Director (Audit and Supervisory Committee Member)

(Nomination Advisory Committee)

With the aim of increasing objectivity and transparency in the procedures for determining the nomination and compensation of Directors, etc., the Company has established the Nomination Advisory Committee, which consists of the President and Representative Director and all Directors who are Audit and Supervisory Committee Members. The Nomination Advisory Committee holds meetings at least three times per year, in principle. As a non-mandatory advisory body to the Board of Directors, the committee deliberates matters related to the nomination and compensation of Directors, etc.

Committee members: Committee chairperson Katsuhiro Umeyama, Outside Director (Audit and Supervisory Committee Member); Shuntaro Furukawa, President and Representative Director; Takuya Yoshimura, Corporate Director (Full-Time Audit and Supervisory Committee Member); Asa Shinkawa, Outside Director (Audit and Supervisory Committee Member); Eiko Osawa, Outside Director (Audit and Supervisory Committee Member); and Keiko Akashi, Outside Director (Audit and Supervisory Committee Member)

The attendance status of the Directors in office at each meeting of the Board of Directors and the Nomination Advisory Committee during the fiscal year ended March 31, 2026 is as follows.

| Classification                                                                             | Name              | Board of Directors      |                             | Nomination Advisory Committee |                             |
|--------------------------------------------------------------------------------------------|-------------------|-------------------------|-----------------------------|-------------------------------|-----------------------------|
|                                                                                            |                   | Number of meetings held | Number of meetings attended | Number of meetings held       | Number of meetings attended |
| President and Representative Director, Member of the Board                                 | Shuntaro Furukawa | 12                      | 12                          | 3                             | 3                           |
| Representative Director, Member of the Board                                               | Shigeru Miyamoto  | 12                      | 12                          | -                             | -                           |
| Corporate Director, Member of the Board                                                    | Shinya Takahashi  | 12                      | 12                          | -                             | -                           |
| Corporate Director, Member of the Board                                                    | Satoru Shibata    | 12                      | 12                          | -                             | -                           |

| Outside Director, Member of the Board (Audit and Supervisory Committee Member) | Keiko Akashi | 12                      | 12                          | 3                             | 3                           |

(Note) Mr. Kazuhiko Hachiya was appointed Director on June 27, 2025. Accordingly, the number of meetings presented refers to the number of those held and attended after his appointment.

During the fiscal year ended March 31, 2026, the Board of Directors deliberated on important development and other projects, investment and acquisition projects, the organizational structure of the Company group, equipment planning, capital policies, matters related to litigation, matters related to corporate governance, sustainability activities and other matters. During the fiscal year ended March 31, 2026, the Nomination Advisory Committee confirmed and exchanged opinions on the results of voting at the General Meeting of Shareholders, the composition of the Board of Directors in coming years and the independence of Outside Directors, and deliberated on candidates for Director (including proposals for the positions of Representative Directors and Directors concurrently serving as Executive Officers) and their compensation.

(Audit and Supervisory Committee)

The Audit and Supervisory Committee consists of one full-time internal Corporate Director and four Outside Directors. The Audit and Supervisory Committee holds meetings once a month, in principle, and deliberates matters provided for in laws and regulations, etc. as the body in charge of auditing the execution of duties, in addition to exchanging audit opinions.

Committee members: Committee chairperson Takuya Yoshimura, Corporate Director (Full-Time Audit and Supervisory Committee Member); Katsuhiro Umeyama, Outside Director (Audit and Supervisory Committee Member); Asa Shinkawa, Outside Director (Audit and Supervisory Committee Member); Eiko Osawa, Outside Director (Audit and Supervisory Committee Member); and Keiko Akashi, Outside Director (Audit and Supervisory Committee Member)

The Company has established the Audit and Supervisory Committee Office which assists the Audit and Supervisory Committee in performing its duties, and has appointed one dedicated staff member in the Office.

(Executive Management Committee)

With the aim of robust promotion of corporate activities, the Company has established the Executive Management Committee consisting of Representative Directors and Corporate Directors concurrently serving as Executive Officers. The Executive Management Committee holds meetings twice per month in principle and deliberates basic policies on matters to be proposed at the meetings of the Board of Directors and management-related business execution policies and various measures.

Committee members: Committee chairperson Shuntaro Furukawa, President and Representative Director; Shigeru Miyamoto, Representative Director; Shinya Takahashi, Corporate Director; Satoru Shibata, Corporate Director; Ko Shiota, Corporate Director; and Yusuke Beppu, Corporate Director

(Compliance Committee)

With the aim of promoting compliance, the Company has established the Compliance Committee chaired by the Senior General Manager of the General Affairs Division under the Executive Management Committee. The Compliance Committee performs initiatives for promotion of compliance including establishment of the "Compliance Manual."

Committee members: Committee chairperson Kentaro Yamagishi, Senior General Manager, General Affairs Division; senior general managers of divisions and senior directors of departments/offices (sections not placed under divisions)

(iii) Other matters related to corporate governance

(a) Preparedness of risk management system

In the Company, as a general rule, each division and department manages risks pertaining to work within its jurisdiction. Furthermore, the Internal Auditing Department monitors the risk management system of each division and department, and proposes and advises on policies for improvement, etc. Further, under the Compliance Committee, thorough compliance efforts are promoted at each division and department. The Company has also established the Information Security Committee to ensure information security and the Product Safety Committee and other structures to guarantee product safety, prevent the occurrence of product accidents and ensure prompt response in the event of an accident.

The Company has established internal regulations applicable to its subsidiaries mainly to ensure efficient risk management and business operation by the subsidiaries. Pursuant to the regulations, the responsible Senior General Managers of the Company identify and manage such matters as the management status of the respective subsidiaries they are in charge of, obtaining information therefrom as necessary, and subsidiaries are required to obtain the Company's prior approval for significant matters.

(b) Summary of agreement on limitation of liability with Outside Directors

In accordance with Article 427, Paragraph 1 of the Companies Act, the Company has entered into an agreement with Outside Directors to limit their liability for damages as stipulated in Article 423, Paragraph 1 of the Companies Act. Pursuant to such agreement, the amount of liability for damages is limited to the amount specified by laws and regulations, and such liability limit will be recognized only when the Outside Director performed his/her duties that caused the liability in good faith and without gross negligence.

(c) Summary of director liability insurance contract

Pursuant to Article 430-3, Paragraph 1 of the Companies Act, the Company has entered into a director liability insurance contract with an insurance provider. The insured are Directors and Executive Officers of the Company and officers of the Company's subsidiaries; the purpose of this insurance contract is to cover compensation for damages and litigation expenses, etc. that may be incurred by the insured while performing his/her duties or that result from pursuit of claims for such liabilities during the insurance period. However, there are certain exclusions, such as cases where an act was performed with the awareness that it constitutes a violation of laws and/or regulations. Insurance premiums are borne by the Company in full.

(d) Number of Directors

The Articles of Incorporation stipulate that the number of Directors of the Company (excluding Directors who are Audit and Supervisory Committee Members) shall be no more than 15 persons, and the number of Directors who are Audit and Supervisory Committee Members shall be no more than five persons.

(e) Requirements for resolution on election of Directors

The Company has stipulated in its Articles of Incorporation that: a resolution on the election of Directors shall be passed by the majority of the votes of the shareholders present at the meeting where the shareholders holding one-third or more of the votes of the shareholders entitled to vote are present; and the resolution on the election of Directors shall not be subject to cumulative vote.

(f) Matters subject to resolution at General Meeting of Shareholders that can be resolved at Board of Directors meeting

(Acquisition of treasury shares)

The Company has stipulated in its Articles of Incorporation that, in order to execute capital policies in a flexible manner in response to changes in the business environment, the Company may acquire treasury shares subject to resolution of the Board of Directors pursuant to the provision of Article 165, Paragraph 2 of the Companies Act.

(Interim dividend)

The Company has stipulated in its Articles of Incorporation that, in order to return profits to shareholders in a flexible manner, the Company may pay an interim dividend to shareholders or registered pledgees of shares entered or recorded in the latest shareholder registry as of September 30 each year, subject to resolution of the Board of Directors.

(g) Requirements for special resolution at General Meeting of Shareholders

The Company has stipulated in its Articles of Incorporation that, in order to fulfill the quorum for a special resolution at the General Meeting of Shareholders with greater certainty, the resolutions provided for in Article 309, Paragraph 2 of the Companies Act shall be passed by two-thirds of the votes of the shareholders present at a meeting where shareholders holding one-third or more of the votes of the shareholders entitled to vote are present.

(iv) Basic policy regarding the Company's control

The Company's Board of Directors believes that the decision of whether to accept another party's tender or other acquisition offer for the purpose of making large purchases of the Company's stock ultimately should be entrusted to its shareholders, given that the stock of the Company, which is a public company, is freely traded. However, it is likely that certain tender or acquisition offers may harm the Company's corporate value or the common interests of shareholders, depending on the intent of the offer, etc. The Company's Board of Directors maintains that such tender or acquisition offers are inappropriate.

As of now, any specific defensive measure in the event of a tender or acquisition offer has not yet officially been introduced, but the Company has already set up an internal system to deal with such an event. If a tender or acquisition offer is proposed, the Company will carefully judge its potential impact on its corporate value and the common interests of shareholders, and take appropriate measures with due care and prudent management.

Specifically, in addition to evaluating the offer with outside experts and negotiating with the party making the offer, the Company will establish a task force to decide on whether any specific defensive measures are necessary. If the offer is deemed inimical to the Company's corporate value or the common interests of its shareholders, the defensive measures will be determined and implemented in accordance with relevant laws and regulations.

The Company will continue to consider adoption of any defensive measures for these situations, giving due respect to laws, regulations and case law related to acquisitions, their interpretations by relevant authorities, etc.

(2) Members of the Board of Directors

(i) List of Members of the Board of Directors

The Company's current members of the Board of Directors as of June 25, 2026 (the submission date of the Company's Annual Securities Report) are as follows.

10 male Directors and four female Directors (percentage of women: 28.6%)

| Position/<br>Job title                                                                                                                                                                          | Name                 | Date of birth        | Past experience                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              | Term | Number of<br>shares held<br>(hundreds) |

(ii) Status of outside officers

(a) Status of appointment of Outside Directors

The Company has appointed the following seven Outside Directors (four of whom are Audit and Supervisory Committee Members) as of June 25, 2026 (the submission date of the Company's Annual Securities Report).

| Name              | Reasons for selection                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
|-------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Chris Meledandri  | He has been appointed as an Outside Director based on our expectation that he will provide valuable advice, while appropriately supervising the Company's management from an objective perspective, based on his broad experience and insight gained as a corporate leader and in the field of entertainment.                                                                                                                                                                                                                           |
| Miyoko Demay      | She has been appointed as an Outside Director based on our expectation that she will provide valuable advice, while appropriately supervising the Company's management from an objective perspective, based on her broad experience and insight gained as a corporate leader and in the field of global marketing brand strategy.                                                                                                                                                                                                       |
| Kazuhiko Hachiya  | He has been appointed as an Outside Director based on our expectation that he will provide valuable advice, while appropriately supervising the Company's management from an objective perspective, based on his broad experience and insight in the field of art, and as a software developer and business executive.                                                                                                                                                                                                                  |
| Katsuhiro Umeyama | He has thorough knowledge of corporate accounting and taxation as a certified public accountant and a certified tax accountant. He has been appointed as an Outside Director (Audit and Supervisory Committee Member) based on our expectation that he will utilize his extensive experience and broad insight in the Company's management to contribute to ensuring the proper decision-making of the Board of Directors of the Company and enriching the audit and supervisory system of the Company.                                 |
| Asa Shinkawa      | She has thorough knowledge of corporate legal affairs as an attorney-at-law. She has been appointed as an Outside Director (Audit and Supervisory Committee Member) based on our expectation that she will utilize her extensive experience and broad insight in the Company's management to contribute to ensuring the proper decision-making of the Board of Directors of the Company and enriching the audit and supervisory system of the Company.                                                                                  |
| Eiko Osawa        | She has thorough knowledge of corporate accounting and taxation as a certified public accountant and a certified tax accountant. She has been appointed as an Outside Director (Audit and Supervisory Committee Member) based on our expectation that she will utilize her extensive experience and broad insight in the Company's management to contribute to ensuring the proper decision-making of the Board of Directors of the Company and enriching the audit and supervisory system of the Company.                              |
| Keiko Akashi      | She has served in the position of Director at Tax Offices and has thorough knowledge of corporate taxation from her experience as a certified tax accountant. She has been appointed as an Outside Director (Audit and Supervisory Committee Member) based on our expectation that she will utilize her extensive experience and broad insight in the Company's management to contribute to ensuring the proper decision-making of the Board of Directors of the Company and enriching the audit and supervisory system of the Company. |

No material conflict of interest exists between each Outside Director and the Company. The six Outside Directors excluding Mr. Chris Meledandri have been appointed as independent officers as stipulated by Tokyo Stock Exchange, Inc.

Illumination Entertainment, which Mr. Chris Meledandri represents, and the Company were both involved in the production of *The Super Mario Galaxy Movie* (released in April 2026), following *The Super Mario Bros. Movie* (released in April 2023). In the production of these movies, there was no transfer of funds or permission given for the use of intellectual property rights between Illumination Entertainment and the Company group, nor is there a business relationship between Mr. Chris Meledandri and the Company in which he is influenced by our intentions or we are influenced by his intentions. However, the movie and video content business is becoming an increasingly important part of our efforts to deliver Nintendo's unique and original entertainment, and the significance of the Company's relationship with Mr. Chris Meledandri, who has extensive knowledge in this field, and Illumination Entertainment, is also increasing. Therefore, the Company has not registered him as an independent officer as stipulated by Tokyo Stock Exchange, Inc.

(b) Description of standards or policies on independence from the Company for appointment of Outside Directors

The Company has not established specific standards or policies on the independence of Outside Directors but uses the criteria for determining the independence of independent officers prescribed in the "Guidelines Concerning Listing Examination, etc." of Tokyo Stock Exchange, Inc. as reference when appointing Outside Directors. In addition, importance is placed on whether or not they are capable of giving objective advice from an impartial standpoint, are of excellent caliber and have expertise and experience.

(iii) Collaboration between supervision by Outside Directors and internal audits and audits by Audit and Supervisory Committee as well as accounting audits, and relationship with internal control division

In principle, the Company's Outside Directors (Audit and Supervisory Committee Members) attend not only Audit and Supervisory Committee meetings held monthly but also audit briefings of the Accounting Auditor where they share opinions. Furthermore, at Audit and Supervisory Committee meetings, Outside Directors receive an explanation of the operational audits conducted in the month and the results of such audits from the full-time Audit and Supervisory Committee Members, and receive timely reports on the results of internal audits by the Internal Auditing Department.

### (3) Status of audits

#### (i) Status of audits by Audit and Supervisory Committee

The Audit and Supervisory Committee Members attend meetings of the Board of Directors and other important meetings, inspect important documents, have regular meetings with the President and hold monthly meetings of the Audit and Supervisory Committee as a general rule to share audit opinions. Specifically, the Audit and Supervisory Committee considers matters such as the formulation of audit policies and audit plans, approval of the budget for audit fees, consent to proposals for the election of Directors, preparation of audit reports, selection of the full-time Audit and Supervisory Committee Member, formation of opinions on the appropriateness of audits by the Accounting Auditor, decisions regarding the appointment of the Accounting Auditor, consent to audit fees for the Accounting Auditor, and acknowledgement of the provision of non-assurance services by the Accounting Auditor. Furthermore, the full-time Audit and Supervisory Committee Member conducts fieldwork auditing over each division of the Company, etc., based on the established annual audit plan, and reports the results of these operational audits. In collaboration with the internal auditing division, the Audit and Supervisory Committee receives timely reports on internal audit results from the Internal Auditing Department and exchanges opinions periodically. In collaboration with the Accounting Auditor, the Audit and Supervisory Committee witnesses physical inventory checks at the end of the period or receives reports on such physical inventory checks, witnesses accounting audits conducted on major subsidiaries, etc. and receives an explanation of the accounting audit plan and accounting audit results on a regular basis. The Audit and Supervisory Committee also exchanges information and opinions as necessary.

Among the Audit and Supervisory Committee Members, Outside Directors Mr. Katsuhiro Umeyama and Ms. Eiko Osawa have thorough knowledge of corporate accounting and taxation as certified public accountants and certified tax accountants and have considerable financial and accounting knowledge. In addition, Outside Director Ms. Keiko Akashi has served in the position of Director at Tax Offices, has thorough knowledge of corporate taxation from her experience as a certified tax accountant and has considerable financial and accounting knowledge.

In the fiscal year ended March 31, 2026, the Audit and Supervisory Committee held 13 meetings; the attendance status of each Audit and Supervisory Committee Member is as follows.

| Classification                                                                                   | Name                 | Number of meetings held | Number of meetings attended |
|--------------------------------------------------------------------------------------------------|----------------------|-------------------------|-----------------------------|
| Corporate Director,<br>Member of the Board (Full-time Audit<br>and Supervisory Committee Member) | Takuya<br>Yoshimura  | 13                      | 13                          |
| Outside Director,<br>Member of the Board (Audit and<br>Supervisory Committee Member)             | Katsuhiro<br>Umeyama | 13                      | 13                          |
| Outside Director,<br>Member of the Board (Audit and<br>Supervisory Committee Member)             | Asa Shinkawa         | 13                      | 13                          |
| Outside Director,<br>Member of the Board (Audit and<br>Supervisory Committee Member)             | Eiko Osawa           | 13                      | 13                          |
| Outside Director,<br>Member of the Board (Audit and<br>Supervisory Committee Member)             | Keiko Akashi         | 13                      | 13                          |

#### (ii) Status of internal audits

For internal audits, the Internal Auditing Department of the Company consisting of seven members conducts operational audits with respect to the Company and its subsidiaries in view of the effectiveness and efficiency of operations, asset preservation status and compliance as a dedicated division that is independent of divisions that execute operations. In order to ensure the appropriateness and reliability of financial reporting, the Internal Auditing Department manages internal controls and assesses the implementation status of such controls in compliance with the Financial Instruments and Exchange Act.

Furthermore, the respective divisions in charge of internal auditing established in major subsidiaries collaborate with the Internal Auditing Department and divide auditing tasks between them, conducting similar audits, etc., centering on major subsidiaries.

Although there is no mechanism in place for the Internal Auditing Department to report the results of audits directly to the Board of Directors, the progress and results of all audits are reported to the President and Representative Director and the full-time Audit and Supervisory Committee Member at regular monthly meetings. The President and Representative Director reports to the Board of Directors annually on the evaluation results of internal controls relating to financial reporting.

(iii) Status of accounting audits

To the extent that investigation is possible, the Company confirmed that it had concluded an auditing agreement with PricewaterhouseCoopers Japan LLC (formerly Hisaji Miyamura Office) on accounting audits pursuant to the Companies Act and the Financial Instruments and Exchange Act since 1962. In close collaboration with the Audit and Supervisory Committee Members and the Internal Auditing Department, the Accounting Auditor reports audit plans and audit results, exchanges necessary information and opinions even during the period and conducts audits in an effective and efficient manner. The names of certified public accountants (CPAs) who performed the work and assistants engaged in audit work in the fiscal year ended March 31, 2026 were as follows.

CPAs who performed accounting audit work

|                    |                     |
|--------------------|---------------------|
| Engagement Partner | Toshimitsu Wakayama |
| Engagement Partner | Yusuke Nishimura    |
| Engagement Partner | Kiichi Sagawa       |

Assistants engaged in accounting audit work: Four CPAs and 23 other persons

\* Other persons are persons who passed the CPA examination, persons in charge of system auditing, etc.

(iv) Policy and reason for appointment of audit firm and evaluation of audit firm by Audit and Supervisory Committee

The Company's policy for determining the termination or nonrenewal of appointment of the Accounting Auditor is: in the event that the Accounting Auditor is deemed to have met any of the grounds set forth in the clauses of Article 340, Paragraph 1 of the Companies Act, the Audit and Supervisory Committee shall terminate the appointment of the Accounting Auditor subject to the unanimous consent of the Audit and Supervisory Committee Members. In addition, should the Accounting Auditor be deemed unable to execute its duties properly or should the replacement of the Accounting Auditor be deemed reasonable in order to enhance the appropriateness of the audits, the Audit and Supervisory Committee shall determine the details of the proposal to terminate or not reappoint the Accounting Auditor for submission to the General Meeting of Shareholders.

The Audit and Supervisory Committee has acknowledged that the Accounting Auditor's audit methods and results are reasonable, having collected information on the Accounting Auditor's independence, audit system, audit implementation status, quality, etc. from the Company's accounting division, internal auditing division and the Accounting Auditor itself. The Audit and Supervisory Committee has also determined that it would be appropriate to reappoint PricewaterhouseCoopers Japan LLC, having evaluated that PricewaterhouseCoopers Japan LLC can be expected to continue conducting appropriate audits, based on the policy for determining the termination or nonrenewal of appointment of the Accounting Auditor and other evaluation standards.

(v) Compensation for audits, etc.

(a) Breakdown of compensation for auditing independent auditor

| Classification            | Fiscal year ended March 31, 2025 |                        | Fiscal year ended March 31, 2026 |                       |                        |                       |
|---------------------------|----------------------------------|------------------------|----------------------------------|-----------------------|------------------------|-----------------------|
|                           | Audit compensation               | Non-audit compensation | Audit compensation               |                       | Non-audit compensation |                       |
|                           | (millions of yen)                | (millions of yen)      | (millions of yen)                | (millions of dollars) | (millions of yen)      | (millions of dollars) |
| Reporting company         | 101                              | -                      | 104                              | 0                     | 2                      | 0                     |

| Total                     | 120                              | -                      | 124                              | 0                     | 2                      | 0                     |

(b) Breakdown of compensation for persons belonging to the same network as independent auditor

| Classification            | Fiscal year ended March 31, 2025 |                        | Fiscal year ended March 31, 2026 |                       |                        |                       |
|---------------------------|----------------------------------|------------------------|----------------------------------|-----------------------|------------------------|-----------------------|
|                           | Audit compensation               | Non-audit compensation | Audit compensation               |                       | Non-audit compensation |                       |
|                           | (millions of yen)                | (millions of yen)      | (millions of yen)                | (millions of dollars) | (millions of yen)      | (millions of dollars) |
| Reporting company         | -                                | 27                     | -                                | -                     | 16                     | 0                     |
| Consolidated subsidiaries | 385                              | 67                     | 429                              | 2                     | 83                     | 0                     |
| Total                     | 385                              | 95                     | 429                              | 2                     | 99                     | 0                     |

(c) Description of non-audit services by independent auditor to the reporting company

(Fiscal year ended March 31, 2025)

Not applicable.

(Fiscal year ended March 31, 2026)

Non-audit services for which the Company pays the independent auditor consist of such services as the preparation of comfort letters related to an offering of the Company's common shares.

(d) Description of non-audit services by independent auditor to consolidated subsidiaries

(Fiscal year ended March 31, 2025)

Not applicable.

(Fiscal year ended March 31, 2026)

Not applicable.

(e) Description of non-audit services by a firm in the same network as independent auditor to the reporting company

(Fiscal year ended March 31, 2025)

Non-audit services for which the Company pays a firm in the same network as the independent auditor consist of such services as tax-related advisory services.

(Fiscal year ended March 31, 2026)

Non-audit services for which the Company pays a firm in the same network as the independent auditor consist of such services as tax-related advisory services.

(f) Description of non-audit services by a firm in the same network as independent auditor to consolidated subsidiaries

(Fiscal year ended March 31, 2025)

Non-audit services for which consolidated subsidiaries pay a firm in the same network as the independent auditor consist of such services as tax-related advisory services.

(Fiscal year ended March 31, 2026)

Non-audit services for which consolidated subsidiaries pay a firm in the same network as the independent auditor consist of such services as tax-related advisory services.

(g) Description of other significant compensation

(Fiscal year ended March 31, 2025)

Not applicable.

(Fiscal year ended March 31, 2026)

Not applicable.

(h) Policy for determination of compensation for audits

The Company determines the amount of compensation for audits to the audit firm in consideration of the retention of independence of the audit firm, the characteristics of services and the number of days taken to conduct audits.

(i) Reason why Audit and Supervisory Committee agreed on amount of compensation, etc. for independent auditor

The Audit and Supervisory Committee determined that the Accounting Auditor's compensation, etc. for this fiscal year is appropriate and agreed on it as a result of the review of information collected from the Company's relevant departments (i.e., the General Accounting & Control Department and the Internal Auditing Department) regarding the contents of the audit plan, the basis of calculating the compensation estimate and a comparison with previous audit details, and the Accounting Auditor's compensation with necessary materials reported and submitted by the Accounting Auditor.

(4) Compensation for officers, etc.

(i) Policy, etc. for the determination of compensation, etc. for officers or calculation method thereof

The Company has established the following policy (hereinafter referred to as the “Decision Policy”) for determining the details of compensation to individual Directors. The Decision Policy was established by resolution of the Board of Directors, after deliberation by the Nomination Advisory Committee.

The compensation for the Company’s Directors who are not Audit and Supervisory Committee Members and Directors who are Audit and Supervisory Committee Members is determined within their respective upper limits which are established by resolution of the General Meeting of Shareholders.

The Company uses results of a compensation survey by an external research agency as a reference for setting compensation standards, etc. The Company has also established a system in which matters related to compensation are deliberated in advance at a non-mandatory Nomination Advisory Committee, mainly consisting of Outside Directors, and reported to the Board of Directors.

(a) Compensation for Directors (excluding Audit and Supervisory Committee Members)

Compensation for Directors (excluding Audit and Supervisory Committee Members) consists of fixed compensation, performance-based compensation as short-term incentives and stock compensation as long-term incentives. However, compensation for Outside Directors consists solely of fixed compensation, in view of their position of providing supervision and advice on management, without engaging in business execution.

The Company has not determined specific relative proportions of fixed compensation, performance-based compensation and stock compensation.

i) Fixed compensation

The amount of fixed compensation to individual Directors is decided by the President and Representative Director, under authority delegated by the Board of Directors, based on each Director’s position and responsibilities, including whether or not he or she engages in business execution. Fixed compensation is paid in the same amount monthly.

ii) Performance-based compensation

The performance-based compensation is calculated using a formula that uses consolidated operating profit as a benchmark and is determined in advance by the Board of Directors based on points corresponding to each Director’s position within the cap set by a resolution of the Board of Directors. It is paid at a designated time each year.

In addition to that, when both the average of consolidated operating profit of the most recent three fiscal years including the fiscal year of payment and the consolidated operating profit of the fiscal year of payment exceed the amount set in advance by the Board of Directors, an additional amount of performance-based compensation shall be paid. This additional amount is calculated with a formula set in advance by the Board of Directors.

iii) Stock compensation

Stock compensation is paid with restricted stock. The number of shares allocated to each Director is decided by the Board of Directors according to the Director’s position, and the compensation is paid at a designated time each year. Restrictions on the transfer of shares are lifted when the Director leaves both the offices of Director and Executive Officer.

(b) Compensation for Directors (Audit and Supervisory Committee Members)

Compensation for Directors (Audit and Supervisory Committee Members) consists only of fixed compensation in view of the fact that they are in the position of engaging in audit and supervision duties independently from Directors who execute operations. Individual compensation amounts are determined through discussion between Audit and Supervisory Committee Members, and paid in the same amount monthly.

(Note) Calculation method of performance-based compensation for each Director (excluding Audit and Supervisory Committee Members)

Performance-based compensation for each Director (excluding Audit and Supervisory Committee Members) uses consolidated operating profit as a benchmark, in order to raise awareness regarding improvement of business performance. It is calculated using the following formula:

- Consolidated operating profit  $\times$  0.3%  $\times$  Number of points of each Director  $\div$  Sum total of Directors’ points\*

However, the total amount of performance-based compensation is limited to ¥880 million (USD 5 million).

This limit is reached when consolidated operating profit is ¥400.0 billion (USD 2,515 million).

\* The sum total of Directors' points shall be set at 30.0 (fixed) if it falls short of 30.0.

Director's points by position and number of Directors

| Position                                                 | Points | Number of Directors (persons) | Total points |
|----------------------------------------------------------|--------|-------------------------------|--------------|
| President and Representative Director                    | 6.0    | 1                             | 6.0          |
| Executive Fellow and Representative Director             | 4.5    | 1                             | 4.5          |
| Senior Managing Executive Officer and Corporate Director | 4.5    | 1                             | 4.5          |
| Managing Executive Officer and Corporate Director        | 3.0    | 1                             | 3.0          |
| Senior Executive Officer and Corporate Director          | 2.0    | 2                             | 4.0          |
| Sum total                                                | -      | 6                             | 22.0         |

(Note) The above is calculated based on the number of Directors as of June 25, 2026 (submission date of the Company's Annual Securities Report).

- In the event that the consolidated operating profit average over the latest three fiscal years (including the fiscal year of payment) exceeds ¥400.0 billion (USD 2,515 million) and the consolidated operating profit in the fiscal year of payment exceeds ¥400.0 billion (USD 2,515 million), the following is added:

[Consolidated operating profit average over the latest three fiscal years (including the fiscal year of payment) – ¥400.0 billion (USD 2,515 million)] × 0.02%

However, the upper limit of the amount of compensation added for each person is ¥40 million (USD 0 million).

Matters of note

- Directors refer to Executive Officers set forth in Article 34, paragraph (1), item (iii) of the Corporation Tax Act.
- “Indicator of the status of profit in the business year ending on or after the first day of the period in which duties pertaining to such remuneration are performed” provided for in Article 34, paragraph (1), item (iii)(a) of the Corporation Tax Act shall mean consolidated operating profit.
- No target has been set for consolidated operating profit, which is the benchmark for performance-based compensation, as described in “II. Business Overview, 1. Management policy, management environment, issues to address, (2) Targeted management index.” Consolidated operating profit results for the fiscal year ended March 31, 2026 were as stated under “V. Financial Information, 1. Consolidated financial statements, etc., (1) Consolidated financial statements, (ii) Consolidated statements of income and consolidated statements of comprehensive income.”
- The amount of consolidated operating profit and consolidated operating profit average used to calculate the amount of performance-based compensation shall be rounded down to the nearest hundred million yen. However, with respect to the performance-based compensation addition requirement, for the purpose of determining whether or not the amount of consolidated operating profit and consolidated operating profit average exceeds ¥400.0 billion (USD 2,515 million), the amount shall be calculated in a unit of one yen.
- If a Director has resigned before the expiry of his/her term of office due to unavoidable circumstances, the amount corresponding to the number of months he/she was in office from the time of commencement of such period up to the end of the period (number of days falling short of one month shall be rounded up to one month) shall be paid. However, the amount shall not be prorated with respect to the number of months in cases where a Director resigns after the end of the period.

(ii) Resolutions by the General Meeting of Shareholders regarding compensation, etc. for officers

A resolution has been adopted by the General Meeting of Shareholders to classify the compensation to Directors (excluding Audit and Supervisory Committee Members) into i) monetary compensation, including fixed compensation and performance-based compensation, and ii) stock compensation, and to set the respective upper limits as follows. These limits do not include portions of their remuneration or bonuses as employees.

(a) Monetary compensation: Not exceeding ¥1,800 million (USD 11 million) per year

This includes fixed compensation not exceeding ¥500 million (USD 3 million) per year (including ¥100 million (USD 0 million) for Outside Directors)

These limits were approved by resolution of the 84th Annual General Meeting of Shareholders held on June 27, 2024. There were eight Directors (excluding Audit and Supervisory Committee Members but including two Outside Directors) at the conclusion of the 84th Annual General Meeting of Shareholders.

(b) Stock compensation: The total amount to be granted in the form of restricted stock monetary compensation claims not exceeding ¥100 million (USD 0 million) per year and the number of shares not exceeding 10,000 shares per year.

(Note) The Company enacted a 10-for-1 stock split of its common stock with an effective date of October 1, 2022. The maximum number of shares shown above is the number after adjusting for this stock split.

These limits were approved by resolution of the 82nd Annual General Meeting of Shareholders held on June 29, 2022. There were six Directors (excluding Audit and Supervisory Committee Members but including one Outside Director) at the conclusion of the 82nd Annual General Meeting of Shareholders.

At the 76th Annual General Meeting of Shareholders on June 29, 2016, a resolution was adopted to establish an upper limit on compensation to Directors (Audit and Supervisory Committee Members) of ¥100 million (USD 0 million) per year. There were four Directors (Audit and Supervisory Committee Members) at the conclusion of the 76th Annual General Meeting of Shareholders.

(iii) Total amount of compensation, etc. by officer classification, total amount of compensation by type, and number of eligible officers at the reporting company

| Officer classification                                                                      | Total amount of compensation, etc.<br>(millions of yen) | Total amount of compensation, etc. by type<br>(millions of yen) |                                |                               | Number of eligible officers (persons) |

- (Notes) 1. The amount of compensation to Directors (excluding Audit and Supervisory Committee Members) is determined at the Board of Directors meeting held after the Annual General Meeting of Shareholders and the amount of compensation to Directors (Audit and Supervisory Committee Members) is determined subject to discussion among Audit and Supervisory Committee Members at the meeting of the Audit and Supervisory Committee held after said Board of Directors meeting for their respective terms of office (limited to cases in which there is reelection associated with expiry of term of office).
2. The details of compensation to individual Directors (excluding Audit and Supervisory Committee Members) for the fiscal year ended March 31, 2026 were determined in accordance with the Decision Policy established by resolution of the Board of Directors after deliberation by the Nomination Advisory Committee. Regarding compensation paid, the amounts of fixed compensation were decided by the President and Representative Director based on each Director's position and responsibilities, including whether or not he or she engages in the execution of operations, and the amounts of performance-based compensation were calculated using a formula determined by the Board of Directors. The Board of Directors therefore deems these amounts to be in compliance with the Decision Policy.
3. The Company judges that the President and Representative Director is most aptly suited to carrying out comprehensive evaluation of each Director's responsibilities. Decisions regarding the amounts of fixed compensation to individual Directors (excluding Audit and Supervisory Committee Members) for the fiscal year ended March 31, 2026 have therefore been delegated to the Company's President and Representative Director, Mr. Shuntaro Furukawa. Before deciding on these amounts of compensation, they are subject to deliberation by the non-mandatory Nomination Advisory Committee.
4. Employee salaries (including bonuses) paid to Directors who also serve as employees, which amounted to ¥150 million (USD 0 million), are not included in the above amounts.
5. The amount of restricted stock compensation is the amount expensed in the fiscal year ended March 31, 2026.

## (iv) Total amount, etc. of compensation on a consolidated basis, etc. by officer at the reporting company

(5) Shareholding status

(i) Criteria for and approach to classification of investment shares

In principle, it is the Company's policy not to hold any investment shares for pure investment purposes; the Company exclusively holds investment shares for purposes other than pure investment in accordance with its shareholding policy.

(ii) Investment shares held for purposes other than pure investment

(a) Shareholding policy, method of verifying the rationality of shareholding and verification at Board of Directors meetings, etc. as to whether or not to hold individual issues

The Company holds investment shares for the purpose of maintaining and developing business alliances and business relationships if it is deemed to contribute to improving corporate value over the mid- to long-term. At its meetings, with regard to individual investment shares (limited to listed stocks), the Board of Directors conducts a quantitative assessment of the scale of transactions and fair value, etc., and a qualitative assessment of the benefits and rationality associated with holding such shares, then verifies the propriety of holding such shares on an annual basis in light of the Company's shareholding policy. As a result of this verification, the Company considers the disposal of investment shares whose significance of holding is deemed to have diminished, with the aim of reducing such holdings.

(b) Number of issues and book value

|                                   | Number of issues<br>(issues) | Total amount stated on balance sheet |                       |
|-----------------------------------|------------------------------|--------------------------------------|-----------------------|
|                                   |                              | (millions of yen)                    | (millions of dollars) |

### (1) Basic policies on Human Capital Strategy, etc.

#### (i) Basic policies on Human Capital Strategy, etc.

“Entertainment” is always at the heart of our business activities, and we remain committed to being a company that creates smiles around the world through family-friendly experiences. To this end, based on our two principles of “expanding the Nintendo IP fanbase” and “fostering long-term relationships with consumers,” we carefully develop each product and service to create more reasons to choose Nintendo for unique and family-friendly entertainment, while earning our consumers’ trust. Through these efforts, we hope to become a beloved part of people’s lives across generations. To deliver Nintendo’s unique and family-friendly entertainment, we are implementing the following policies regarding human resource development and the enhancement of workplace environments.

#### (a) Policy on human resource development

To enable Nintendo’s unique and family-friendly entertainment, we focus on our “Nintendo DNA,” which consists of originality, flexibility and sincerity. With the Nintendo DNA as a foundation, we have introduced a variety of human resource initiatives designed to maximize the individual development of each employee through their work experience. The process of creating games or other forms of entertainment and delivering those products or services around the world cannot be accomplished by one person alone. We emphasize teamwork to enable our employees to work with energy and enthusiasm. In this way, with our Nintendo DNA as a cornerstone, we promote individual development and teamwork, which in turn mutually influence and enhance each other to bring Nintendo’s unique and family-friendly entertainment to life.

- Nintendo DNA

**Originality:** Nintendo’s purpose is to continue delivering new entertainment and unique experiences. We place great value on providing consumers with original products and services that surprise them by being different. We are passionate about this goal and will continue to take on new challenges.

**Flexibility:** In order to sustain prosperity, we must respond dynamically to an ever-changing environment. Our decisions change when the conditions and business environment change. We must be nimble and flexible to adapt to changes by thinking outside the box and not simply follow what has worked in the past.

**Sincerity:** The accumulation of small but trustworthy actions over time can lead to great change. We need humility and must never forget to be modest and always put our best foot forward. In order to develop, we try to learn from our experiences each day.

- Individual development

Each person can learn a great deal from their work experience. Based on this belief, we help our employees grow not only through the development of their individual skills, but also through the accumulation of experience working with their seniors, supervisors, colleagues and team members. For individual development, it is important that employees have opportunities to broaden their experiences while living the Nintendo DNA in daily work. We have always pursued new forms of fun and excitement, and this attitude has created opportunities to take on challenges. As long as we continue to pursue that fun and excitement, we believe that we can provide opportunities for each employee to grow through challenge.

- Teamwork

To create and deliver an unprecedented level of fun to our consumers, teamwork is essential. We value a work environment where team members can exchange their ideas and opinions through discussions and receive timely advice. At Nintendo, our product development thrives on employees with a broad range of perspectives and values, who respect each other’s expertise and talents and collaborate toward a shared goal. As we continue to create products, this spirit of collaboration has transcended the framework of product development and has taken root in our organizational culture.

#### (b) Policy for Enhancing the Workplace Environments

To create Nintendo’s unique and family-friendly entertainment, it is essential to foster an environment where each employee can grow and collaborate closely through meaningful human connections. Based on this belief, Nintendo strives to promote internal communication and to strengthen coordination across the company. In addition, we are expanding our various support programs to help employees balance work and their personal lives in ways that complement their individual work styles and life stages, while cultivating an environment where they can continue working with confidence.

#### (c) Metrics and Targets

To assess the status of individual development and teamwork, we conduct an annual survey covering “demonstration of individual abilities,” “teamwork” and “trust in supervisors” at Nintendo Co., Ltd. (Japan). We analyze the results, consider improvements as necessary and reflect them in our human resources initiatives. Treating the survey response rate as an important indicator, we manage the quality of survey operations and regularly review the results to ensure the effectiveness of improvements.

The true purpose of the survey is to obtain candid responses from employees. At this stage, we do not use survey scores as an indicator, to avoid creating unnecessary bias in responses caused by employees becoming conscious of achieving a target. In addition, since our indicators are designed independently based on our corporate culture, we believe they cannot be simply compared numerically with those of other companies and do not directly provide an accurate assessment of corporate value. Our objective is to rigorously analyze the results internally and make improvements suited to each division and department, and we operate the survey appropriately in line with that purpose.

From this perspective, we position the survey response rate — rather than the survey score itself — as an important indicator showing whether employees are proactively participating in the survey. We believe the survey response rate is an effective indicator for measuring whether employees are directing their attention to the approach to human capital that Nintendo values.

In addition, by encouraging employees to regularly reflect on these themes through the survey, we believe that this process promotes reflection and growth throughout the organization and accelerates the demonstration of individual abilities and teamwork. We believe that this series of initiatives ultimately leads directly to the creation of Nintendo’s unique entertainment experiences and, in turn, to the enhancement of corporate value over the medium to long term.

| Metric               | Target                 | Result<br>(fiscal year ended March 31, 2026) |
|----------------------|------------------------|----------------------------------------------|
| Survey response rate | Maintain 90% or higher | 91%                                          |

(Note) The target and results shown above are for Nintendo Co., Ltd. With respect to our subsidiaries and affiliates, we are taking a careful approach to setting uniform group-wide indicators and targets, as their business activities differ and their corporate cultures and the qualities required of employees are varied.

## (ii) Policy on Employee Compensation, etc.

Our policy for determining the amounts and details of employee salaries, bonuses, and other benefits is as follows. To create Nintendo’s unique and family-friendly entertainment, it is essential to cultivate an environment where employees can engage in their work with confidence and cultivate their abilities to the fullest. Our basic policy is to build a fair compensation system based on the quality and consistency of the abilities each individual demonstrates.

At Nintendo Co., Ltd. (Japan), we define these demonstrated abilities as the skills individuals possess that translate into visible actions through their daily work. This approach allows us to focus on real behavior, rather than inherent personal traits or temporary, short-term results. The evaluation criteria incorporate the elements of “Nintendo DNA,” “individual development,” and “teamwork,” clarifying the direction in which employees should aim to cultivate their abilities.

Furthermore, to align each individual’s career aspirations with their supervisors’ expectations, our annual evaluation process encourages mutual understanding through self-assessments and supervisor feedback. This shared insight helps guide future work and drives continuous professional growth and talent cultivation.

## (2) Employees

Segment information is omitted as Nintendo (the Company and its consolidated subsidiaries) operates as a single business segment.

### (i) Information about group

| As of March 31, 2026          |       |
|-------------------------------|-------|
| Number of employees (persons) | 8,666 |

(Note) Number of employees represents the number of persons employed, excluding persons seconded from the Company group to outside the Company group, but including persons seconded to the Company group from outside the Company group. It also includes part-time workers hired on a regular basis.

## (ii) Information about reporting company

As of March 31, 2026

| Number of employees (persons) | Average age (years) | Average length of service (years) | Average annual salary         | Year-on-year increase (decrease) in average annual salary (%) |
|-------------------------------|---------------------|-----------------------------------|-------------------------------|---------------------------------------------------------------|
| 3,084                         | 40.5                | 14.6                              | 9,824,708 yen<br>(USD 61,790) | 1.64                                                          |

(Notes) 1. Number of employees represents the number of persons employed, excluding persons seconded from the Company to outside the Company, but including persons seconded to the Company from outside the Company.

2. Average annual salary is the amount paid inclusive of tax in the fiscal year ended March 31, 2026, including extra wages and bonuses.

## (iii) Labor unions

Labor unions do not exist in the Company but have been formed at some of its consolidated subsidiaries. Labor-management relations have been good, and there are no particular matters to be noted.

## (iv) Proportion of management positions held by female workers, rate of childcare leave taken among male workers and pay gap between male and female workers

## (a) Reporting company

| As of March 31, 2026                                                   |                                                               |                                                      |                   |                                 | Supplemental explanation |
|------------------------------------------------------------------------|---------------------------------------------------------------|------------------------------------------------------|-------------------|---------------------------------|--------------------------|
| Proportion of management positions held by female workers (%) (Note 1) | Rate of childcare leave taken among male workers (%) (Note 2) | Pay gap between male and female workers (%) (Note 1) |                   |                                 |                          |
|                                                                        |                                                               | All workers                                          | Regular employees | Part-time and temporary workers |                          |
| 5.8                                                                    | 82                                                            | 72.7                                                 | 73.6              | 84.2                            | (Note 3)                 |

(Notes) 1. Calculated in accordance with the provisions of the Act on Promotion of Women's Participation and Advancement in the Workplace (Act No. 64 of 2015).

2. This represents a calculation of the childcare leave uptake rate set forth under Article 71-6 (1) of the Ordinance for Enforcement of the Act on Childcare Leave, Caregiver Leave, and Other Measures for the Welfare of Workers Caring for Children or Other Family Members (Ordinance of the Ministry of Labor No. 25 of 1991), in accordance with the Act on Childcare Leave, Caregiver Leave, and Other Measures for the Welfare of Workers Caring for Children or Other Family Members (Act No. 76 of 1991).

3. The pay gap between male and female workers is mainly due to differences in the length of service and average age. There is no difference in treatment between men and women in terms of salary or evaluation systems.

## Notes to Consolidated Financial Statements

### Significant matters forming the basis of preparing the consolidated financial statements

#### 1. Scope of consolidation

- (1) Number of consolidated subsidiaries: 30 companies

The names of significant consolidated subsidiaries are omitted because they are provided in “I. Overview of the Company, 4. Subsidiaries and associates.”

During the fiscal year ended March 31, 2026, two companies were included in the scope of consolidation due to new establishment, while one company was reclassified from an associate accounted for under the equity method to a consolidated subsidiary due to the additional acquisition of shares.

- (2) Number of unconsolidated subsidiaries: two companies

The main unconsolidated subsidiary is Fukuei Co., Ltd.

The above is unconsolidated because it is a small-scale company and does not have a material impact on the consolidated financial statements with respect to total assets, net sales, profit or loss, retained earnings, etc.

#### 2. Application of the equity method

- (1) Number of associates accounted for under the equity method: three companies

The main associate accounted for under the equity method is The Pokémon Company.

During the fiscal year ended March 31, 2026, one company was reclassified from an associate accounted for under the equity method to a consolidated subsidiary due to the additional acquisition of shares.

- (2) Unconsolidated subsidiaries not accounted for under the equity method

The main unconsolidated subsidiary not accounted for under the equity method is Fukuei Co., Ltd.

This is because the impact of said company on profit or loss, retained earnings, etc. is negligible, and it is immaterial as a whole.

- (3) With respect to associates accounted for under the equity method whose account closing dates differ from the consolidated account closing date, the financial statements of each of the companies, either based on their fiscal year or based on provisional accounts closing, are incorporated.

#### 3. Year-ends of consolidated subsidiaries

Of consolidated subsidiaries, iQue (China) Ltd. and one other subsidiary close accounts on December 31 every year.

As the difference between closing dates is within three months, the above subsidiaries were accounted for based on the financial statements as of the account closing date of each subsidiary. Necessary adjustments were made to the consolidated financial statements to reflect any significant transactions that took place between their account closing dates and the consolidated account closing date.

#### 4. Accounting procedures

- (1) Valuation basis and method for important assets

- (i) Securities

For held-to-maturity debt securities, the amortized cost method (straight-line method) is used. For other securities excluding stocks, etc. without market prices, the market price method is used (valuation difference is reported as a component of net assets and the cost of sales is calculated using the moving average method), and stocks, etc. without market prices are stated at cost using the moving-average method.

- (ii) Derivatives

The fair value method is applied.

- (iii) Inventories

They are mainly stated at cost using the moving-average method (the figures shown in the balance sheets have been calculated by writing them down based on decline in profitability).

(2) Depreciation and amortization methods of significant depreciable and amortizable assets

(i) Property, plant and equipment (excluding leased assets):

The Company and its consolidated subsidiaries in Japan apply the declining balance method, but certain tools, furniture and fixtures are subject to depreciation based on their useful lives in line with their commercial obsolescence. However, the straight-line method is applied for buildings (excluding accompanying facilities), acquired on April 1, 1998 or thereafter and for facilities attached to buildings and structures acquired on April 1, 2016, and thereafter. Consolidated subsidiaries outside of Japan apply the straight-line method based on the estimated economic useful lives.

Useful lives of main assets are as follows:

|                          |            |
|--------------------------|------------|
| Buildings and structures | 3-60 years |
|--------------------------|------------|

(ii) Intangible assets (excluding leased assets):

Intangible assets are amortized using the straight-line method. Software for internal use is amortized over the estimated internal useful life (principally five years).

(iii) Leased assets

Leased assets in finance lease transactions that do not transfer ownership

The straight-line method with no residual value is applied, regarding the lease term as useful life.

(3) Accounting for significant reserves

(i) Allowance for doubtful accounts

The Company and its consolidated subsidiaries in Japan provide the allowance for doubtful accounts based on the historical analysis of loss experienced for general receivables and on individual evaluations of uncollectible amounts for specific receivables including doubtful accounts. Consolidated subsidiaries outside of Japan provide the allowance for doubtful accounts based on the individual evaluation of uncollectible amount for each receivable.

(ii) Provision for bonuses

The Company and certain consolidated subsidiaries provide the reserve for the estimated amount of bonuses to be paid to the employees.

(iii) Provision for Directors' compensation

The Company provides for Directors' compensation based on the estimated amount of compensation payable to Directors (excluding Directors who are Audit and Supervisory Committee Members and Outside Directors).

(4) Accounting method for retirement benefits

(i) Periodic allocation method for estimated benefit obligation

Upon calculating the retirement benefit obligations, the estimated benefit obligation is attributed to periods up until the end of the fiscal year ended March 31, 2026, on a benefit formula basis.

(ii) Amortization method for actuarial gains and losses and past service cost

Actuarial gains and losses and past service cost are processed collectively in the year in which they are incurred.

(iii) Application of simple method at small enterprises, etc.

Some consolidated subsidiaries apply a simple method including a method in which an estimated amount required to be paid for voluntary retirement benefits at the end of the fiscal year is deemed as the retirement benefit obligations in the calculations of retirement benefit liability and retirement benefit expenses.

Assets in the Company's defined benefit corporate pension plan are recorded as "Retirement benefit asset" under investments and other assets as the plan assets exceeded the retirement benefit obligations.

(5) Standards of translation into yen of significant assets or liabilities denominated in foreign currencies

All the monetary receivables and payables of the Company and its consolidated subsidiaries in Japan denominated in foreign currencies are translated into Japanese yen based on the spot rate of exchange in the foreign exchange market on the respective account closing dates. The foreign exchange gains and losses from translation are recognized in the accompanying consolidated statements of income. Assets or liabilities of consolidated subsidiaries outside of Japan, etc. are translated into yen based on the spot rate of exchange in the foreign exchange market on the account closing date, while revenue and expenses are translated into yen based on the average rate of exchange for the fiscal year. The differences resulting from such translations are included in "Foreign currency translation adjustment" under net assets.

(6) Amortization method and amortization period of goodwill

Goodwill is primarily amortized in equal amounts over a period of five years. However, in cases where goodwill is immaterial in amount, such goodwill is written off in full in the accrued fiscal year.

(7) Scope of cash and cash equivalents in the consolidated statements of cash flow

“Cash and cash equivalents” include cash on hand, time deposit which can be withdrawn on demand and short-term investments, with little risk of fluctuation in value and maturity within three months or less of the acquisition date, which are promptly convertible to cash.

(8) Standards of accounting for significant revenue and expenses

The Company group is engaged in the development, manufacture and sale, etc. of entertainment products in the home entertainment field. Specifically, the Company group sells products such as video game hardware, software and accessories, and also provides various services such as Nintendo Switch Online. In addition, it sells services and content for mobile applications.

The details of the main performance obligations concerning revenue arising from contracts with customers in the Company group’s major businesses, and the usual timing of the fulfillment of these performance obligations (the usual timing of revenue recognition) are as follows.

(i) Dedicated video game platforms

The transaction price is deemed to be the consideration expected to be received in return for the product or service. Because this consideration is generally expected to be received within one year after performance obligations have been fulfilled, it does not contain a significant element of financing. The Company generally recognizes revenue in the full amount of this consideration. However, in cases such as downloadable software from software publishers, the Company recognizes revenue equal to the amount of sales commission that the Company group will receive.

Regarding revenue from sales of products such as hardware, software and accessories, control is usually deemed to be transferred to the customer, and performance obligations fulfilled, on the day when these products are scheduled to arrive at the place designated by the customer. However, in the case of downloadable software and add-on content, performance obligations are deemed to be fulfilled when the product or content becomes available for the customer to use. Therefore, in the case of advance sales, or when add-on content is yet to be distributed, revenue recognition is deferred until the date when the software or content becomes available for the customer to use. When add-on content is distributed in multiple stages, the standalone selling price at each stage is estimated from observable information, and the transaction price is allocated between each stage. The unused portion of the pre-charged balances used to purchase products and services on e-commerce websites operated by the Company group is recognized as revenue in proportion to customer usage patterns.

Some of the Company group’s products include a performance obligation to enable customers to update the product free of charge. In cases such as these, the Company estimates the standalone selling price of the update and the date when the update will become available for use. The performance obligation associated with the portion of the transaction price allocated to the update is deemed fulfilled on this date.

Among the services provided by the Company group, performance obligations for paid membership services such as Nintendo Switch Online are deemed to be progressively fulfilled throughout the subscription period, as services are provided throughout this period.

(ii) IP related income, etc.

IP related income, etc. includes income from the sale of mobile applications, in addition to IP related income. For IP related income, revenue is generally recognized as customers use the Company’s IP.

For the sale of mobile applications, performance obligations are deemed to be fulfilled when the application becomes available for the customer to use. For in-game currency sold on mobile applications, performance obligations are deemed to be fulfilled when the customer uses the currency. Performance obligations for paid membership services are deemed to be progressively fulfilled throughout the subscription period.

(Significant accounting estimates)

Valuation of inventories

(1) Amount recorded in the consolidated financial statements for the fiscal year ended March 31, 2026

|             | Previous fiscal year<br>(as of March 31, 2025) | Current fiscal year<br>(as of March 31, 2026) |
|-------------|------------------------------------------------|-----------------------------------------------|
| Inventories | ¥486,428 million                               | ¥539,804 million<br>USD 3,394 million         |

(2) Information on the details of significant accounting estimates related to the identified items

The Company group recorded inventories of ¥539,804 million (USD 3,394 million) on the consolidated balance sheets for the fiscal year ended March 31, 2026, including a write-down on raw materials of ¥17,237 million (USD 108 million) and write-down on finished goods of ¥23,118 million (USD 145 million).

The moving average cost method is the main method used for the valuation of inventory (the value shown on the balance sheets represents book value reduced in accordance with declines in profitability). This method of inventory valuation focuses on factors such as inventory turnover rates based on past results for usage of raw materials and sales of finished goods, as well as market conditions, to estimate the possibility of achieving future production and sales plans. Product lifecycle in the Company group's businesses is relatively short, and there is therefore a degree of uncertainty regarding the probability that raw materials will be used or finished goods will be sold. The closing balance of inventories and cost of sales for the fiscal period will be affected if net selling price and recoverable amount fall below expectations, or, if the use or sales of raw materials or products for which a valuation write-down was previously recorded exceed plans.

Valuation of deferred tax assets

(1) Amount recorded in the consolidated financial statements for the fiscal year ended March 31, 2026

|                     | Previous fiscal year<br>(as of March 31, 2025) | Current fiscal year<br>(as of March 31, 2026) |
|---------------------|------------------------------------------------|-----------------------------------------------|
| Deferred tax assets | ¥80,929 million                                | ¥121,899 million<br>USD 766 million           |

(2) Information on the details of significant accounting estimates related to the identified items

The Company group recorded deferred tax assets of ¥121,899 million (USD 766 million) for the fiscal year ended March 31, 2026.

The recoverability of deferred tax assets is determined based on estimates of future taxable income, etc. based on business plans. Deferred tax assets are recorded for deductible differences that the Company considers are likely to reduce taxable income in the future. The Company generates a stable taxable income, and no substantial change in future business results is anticipated. However, the Company group's businesses represent one part of the broader entertainment sector, and they are affected by the market environment brought about by various entertainment trends. Estimates of future taxable income based on business plans are therefore subject to uncertainty. If estimates of future taxable income change, then this will have an impact on deferred tax assets and income taxes - deferred.

**New accounting standards not yet applied**

- “Accounting Standard for Leases” (Accounting Standards Board of Japan (ASBJ) Statement No. 34 of September 13, 2024)
- “Implementation Guidance on Accounting Standard for Leases” (ASBJ Guidance No. 33 of September 13, 2024)  
Additionally, revisions to related accounting standards, implementation guidance, practical solutions and transferred guidance

(1) Overview

This accounting standard, etc. stipulates treatment in line with international accounting standards, including the requirement that companies must record assets and liabilities corresponding to all leases for which they are the lessee.

(2) Scheduled application

Application is scheduled from the start of the fiscal year ending March 31, 2028.

(3) Impact of the application of the accounting standard, etc.

The impact is under evaluation as of the time of preparation of the consolidated financial statements for the fiscal year ended March 31, 2026.

- “Accounting Standard for Subsequent Events” (ASBJ Statement No. 41 of January 9, 2026)
- “Implementation Guidance on Accounting Standard for Subsequent Events” (ASBJ Implementation Guidance No. 35 of January 9, 2026)

(1) Overview

“Accounting Standard for Subsequent Events,” etc. prescribes the accounting treatment and disclosure regarding subsequent events. It prioritizes the establishment of comprehensive accounting standards that address the definition, accounting treatment, and disclosure of subsequent events, with the basic policy of transferring to the Accounting Standards Board of Japan the accounting-related content presented in Statement on Auditing Standards 560, Practical Guideline No. 1 “Audit Treatment of Subsequent Events” by the Auditing and Assurance Standards Committee of the Japanese Institute of Certified Public Accountants (JICPA), in principle. Under the basic policy, the standard reviews the wording and clarifies the evaluation period for subsequent events, while at the same time newly requiring notes on the approval of the publication of financial statements, etc.

(2) Scheduled application

Application is scheduled from the start of the fiscal year ending March 31, 2028.

**Changes in presentation method**

(Notes to consolidated statements of income)

“Interest expenses,” which had been included in “Other” under “Non-operating expenses” in the fiscal year ended March 31, 2025, became more material in amount and is thus presented separately from the fiscal year ended March 31, 2026. In order to reflect this change in the presentation method, reclassification was performed with respect to the consolidated financial statements for the fiscal year ended March 31, 2025.

As a result, “Other” in the amount of ¥716 million (USD 4 million), which had been presented under “Non-operating expenses” in the consolidated statements of income for the fiscal year ended March 31, 2025, was reclassified into “Interest expenses” in the amount of ¥196 million (USD 1 million) and “Other” in the amount of ¥520 million (USD 3 million).

(Notes to consolidated statements of cash flows)

“Purchase of treasury shares,” which had been included in “Other, net” under “Cash flows from financing activities” in the fiscal year ended March 31, 2025, became more material in amount and is thus presented separately from the fiscal year ended March 31, 2026. In order to reflect this change in the presentation method, reclassification was performed with respect to the consolidated financial statements for the fiscal year ended March 31, 2025.

As a result, “Other, net” in the amount of ¥(1,934) million (USD (12) million), which had been presented under “Cash flows from financing activities” in the consolidated statements of cash flows for the fiscal year ended March 31, 2025, was reclassified into “Purchase of treasury shares” in the amount of ¥(2) million (USD (0) million) and “Other, net” in the amount of ¥(1,931) million (USD (12) million).

## Notes to consolidated balance sheets

- \*1. The amounts of receivables arising from contracts with customers among notes and accounts receivable - trade are as follows:

|                             | Previous fiscal year<br>(as of March 31, 2025) | Current fiscal year<br>(as of March 31, 2026) |                 |
|-----------------------------|------------------------------------------------|-----------------------------------------------|-----------------|
| Notes receivable - trade    | ¥256 million                                   | ¥483 million                                  | USD 3 million   |
| Accounts receivable - trade | ¥64,923 million                                | ¥147,001 million                              | USD 924 million |

- \*2. Inventories as of March 31, 2025 and 2026 were as follows:

|                            | Previous fiscal year<br>(as of March 31, 2025) | Current fiscal year<br>(as of March 31, 2026) |                   |
|----------------------------|------------------------------------------------|-----------------------------------------------|-------------------|
| Finished goods             | ¥293,462 million                               | ¥318,849 million                              | USD 2,005 million |
| Work in process            | ¥14,091 million                                | ¥30 million                                   | USD 0 million     |
| Raw materials and supplies | ¥178,874 million                               | ¥220,924 million                              | USD 1,389 million |

- \*3. Accumulated depreciation of property, plant and equipment as of March 31, 2025 and 2026 were as follows:

|                          | Previous fiscal year<br>(as of March 31, 2025) | Current fiscal year<br>(as of March 31, 2026) |                 |
|--------------------------|------------------------------------------------|-----------------------------------------------|-----------------|
| Accumulated depreciation | ¥97,327 million                                | ¥108,369 million                              | USD 681 million |

- \*4. Investments in unconsolidated subsidiaries and associates as of March 31, 2025 and 2026 were as follows:

|                       | Previous fiscal year<br>(as of March 31, 2025) | Current fiscal year<br>(as of March 31, 2026) |                   |
|-----------------------|------------------------------------------------|-----------------------------------------------|-------------------|
| Investment securities | ¥192,921 million                               | ¥278,251 million                              | USD 1,750 million |

- \*5. Among other, the amounts of contract liabilities as of March 31, 2025 and 2026 were as follows:

|                      | Previous fiscal year<br>(as of March 31, 2025) | Current fiscal year<br>(as of March 31, 2026) |                   |
|----------------------|------------------------------------------------|-----------------------------------------------|-------------------|
| Contract liabilities | ¥152,188 million                               | ¥174,944 million                              | USD 1,100 million |

## Notes to consolidated statements of income

- \*1. The ending inventory balance is the amount after write-down of book value due to decline in profitability, and the loss on valuation of inventories included in cost of sales for the years ended March 31, 2025 and 2026 were as follows:

|                                  | Previous fiscal year<br>(from April 1, 2024<br>to March 31, 2025) | Current fiscal year<br>(from April 1, 2025<br>to March 31, 2026) |                |
|----------------------------------|-------------------------------------------------------------------|------------------------------------------------------------------|----------------|
| Loss on valuation of inventories | ¥14,074 million                                                   | ¥14,127 million                                                  | USD 88 million |

- \*2. The major items of selling, general and administrative expenses for the years ended March 31, 2025 and 2026 were as follows:

|                                              | Previous fiscal year<br>(from April 1, 2024<br>to March 31, 2025) | Current fiscal year<br>(from April 1, 2025<br>to March 31, 2026) |                   |
|----------------------------------------------|-------------------------------------------------------------------|------------------------------------------------------------------|-------------------|
| Research and development expenses            | ¥143,782 million                                                  | ¥177,890 million                                                 | USD 1,118 million |
| Advertising expenses                         | 86,575                                                            | 144,684                                                          | 909               |
| Salaries, allowances and bonuses             | 54,862                                                            | 57,828                                                           | 363               |

## Notes to consolidated statements of changes in equity

Previous fiscal year (From April 1, 2024 to March 31, 2025)

### 1. Matters concerning outstanding shares

| (Shares)      |                     |          |          |                      |
|---------------|---------------------|----------|----------|----------------------|
| Type of share | As of April 1, 2024 | Increase | Decrease | As of March 31, 2025 |
| Common shares | 1,298,690,000       | -        | -        | 1,298,690,000        |

### 2. Matters concerning treasury shares

| (Shares)      |                     |          |          |                      |
|---------------|---------------------|----------|----------|----------------------|
| Type of share | As of April 1, 2024 | Increase | Decrease | As of March 31, 2025 |
| Common shares | 134,451,510         | 306      | 10,000   | 134,441,816          |

(Summary of causes of changes)

The increase in treasury shares was due to acquisitions in line with buyback requests for shares less than one unit.

The decrease in treasury shares was due to the disposal of treasury shares as restricted stock compensation.

### 3. Matters concerning dividends

#### (1) Amount of dividends paid

| Resolution                                                   | Type of share | Amount of dividends | Dividends per share | Record date        | Effective date   |
|--------------------------------------------------------------|---------------|---------------------|---------------------|--------------------|------------------|
| Annual General Meeting of Shareholders held on June 27, 2024 | Common shares | ¥152,515 million    | ¥131                | March 31, 2024     | June 28, 2024    |
| Meeting of Board of Directors held on November 5, 2024       | Common shares | ¥40,748 million     | ¥35                 | September 30, 2024 | December 2, 2024 |

#### (2) Dividend payments for which the record date is in the fiscal year ended March 31, 2025, and the effective date is in the following fiscal year

| Resolution                                                   | Type of share | Amount of dividends | Source of dividends | Dividends per share | Record date    | Effective date |
|--------------------------------------------------------------|---------------|---------------------|---------------------|---------------------|----------------|----------------|
| Annual General Meeting of Shareholders held on June 27, 2025 | Common shares | ¥98,961 million     | Retained earnings   | ¥85                 | March 31, 2025 | June 30, 2025  |

Current fiscal year (From April 1, 2025 to March 31, 2026)

1. Matters concerning outstanding shares

| (Shares)      |                     |          |            |                      |
|---------------|---------------------|----------|------------|----------------------|
| Type of share | As of April 1, 2025 | Increase | Decrease   | As of March 31, 2026 |
| Common shares | 1,298,690,000       | -        | 11,430,000 | 1,287,260,000        |

(Summary of causes of changes)

The decrease in outstanding shares was due to the cancellation of treasury shares based on a resolution adopted at the Board of Directors meeting held on February 27, 2026.

2. Matters concerning treasury shares

| (Shares)      |                     |            |            |                      |
|---------------|---------------------|------------|------------|----------------------|
| Type of share | As of April 1, 2025 | Increase   | Decrease   | As of March 31, 2026 |
| Common shares | 134,441,816         | 11,430,549 | 11,441,070 | 134,431,295          |

(Summary of causes of changes)

The increase in treasury shares was due to acquisition of 549 treasury shares in line with buyback requests for shares less than one unit and acquisition of 11,430,000 treasury shares through market purchases on the Tokyo Stock Exchange based on a resolution adopted at the Board of Directors meeting held on February 27, 2026.

The decrease in treasury shares was due to sale of 70 treasury shares in line with sales requests for shares less than one unit, cancellation of 11,430,000 treasury shares based on a resolution adopted at the Board of Directors meeting held on February 27, 2026, and disposal of 11,000 treasury shares as restricted stock compensation.

3. Matters concerning dividends

(1) Amount of dividends paid

| Resolution                                                   | Type of share | Amount of dividends                  | Dividends per share | Record date        | Effective date   |
|--------------------------------------------------------------|---------------|--------------------------------------|---------------------|--------------------|------------------|
| Annual General Meeting of Shareholders held on June 27, 2025 | Common shares | ¥98,961 million<br>[USD 622 million] | ¥85<br>[USD 0.53]   | March 31, 2025     | June 30, 2025    |

(2) Dividend payments for which the record date is in the fiscal year ended March 31, 2026, and the effective date is in the following fiscal year

| Resolution                                                   | Type of share | Amount of dividends                     | Source of dividends | Dividends per share | Record date    | Effective date |
|--------------------------------------------------------------|---------------|-----------------------------------------|---------------------|---------------------|----------------|----------------|
| Annual General Meeting of Shareholders held on June 26, 2026 | Common shares | ¥204,050 million<br>[USD 1,283 million] | Retained earnings   | ¥177<br>[USD 1.11]  | March 31, 2026 | June 29, 2026  |

## Notes to consolidated statements of cash flow

- \*1. “Cash and cash equivalents at end of period” were reconciled to “Cash and deposits” in the accompanying consolidated balance sheets as of March 31, 2025 and 2026 as follows:

|                                                              | Previous fiscal year<br>(from April 1, 2024<br>to March 31, 2025) | Current fiscal year<br>(from April 1, 2025<br>to March 31, 2026) |                    |
|--------------------------------------------------------------|-------------------------------------------------------------------|------------------------------------------------------------------|--------------------|
| Cash and deposits                                            | ¥1,586,275 million                                                | ¥1,791,802 million                                               | USD 11,269 million |
| Time deposits with maturity of more than three months        | (410,356)                                                         | (775,400)                                                        | (4,876)            |
| Short-term investments with maturity of three months or less | 238,202                                                           | 300,278                                                          | 1,888              |
| Cash and cash equivalents                                    | ¥1,414,121 million                                                | ¥1,316,680 million                                               | USD 8,281 million  |

## Lease transactions

### 1. Finance lease transactions

Information on finance leases as of March 31, 2025 and 2026 were omitted as it is immaterial.

### 2. Operating lease transactions

Future lease payments under non-cancelable operating leases

|                     | Previous fiscal year<br>(as of March 31, 2025) | Current fiscal year<br>(as of March 31, 2026) |                |
|---------------------|------------------------------------------------|-----------------------------------------------|----------------|
| Due within one year | ¥856 million                                   | ¥1,266 million                                | USD 7 million  |
| Due after one year  | 6,470                                          | 6,259                                         | 39             |
| Total               | ¥7,327 million                                 | ¥7,525 million                                | USD 47 million |

## Financial instruments

### 1. Condition of financial instruments

#### (1) Policy for measures relating to financial instruments

Nintendo (the Company and its consolidated subsidiaries) invests its funds in highly secure financial assets such as deposits. Nintendo utilizes derivatives to reduce and manage the risk of exchange rate fluctuations as described below, and does not enter into transactions for speculative purposes.

#### (2) Details of financial instruments, related risks, and risk management system

Notes and accounts receivable - trade are exposed to credit risk from customers. In order to reduce this risk, Nintendo monitors the financial position and transaction history, assesses creditworthiness and sets a transaction limit for each customer. The risk regarding bonds included in short-term investment securities and investment securities is negligible, since they are mainly the bonds of correspondent financial institutions, the U.S. Treasury and other entities with strong credit that are held to maturity. Such bonds are also subject to foreign currency exchange risk and market risk. Nintendo closely monitors the market price of such bonds and the financial position of the issuer and reviews the status of these holdings on a regular basis. Stocks included in investment securities are mainly those of companies with which the Company has business relationships. These stocks are exposed to market risk, but the balance held is immaterial.

Notes and accounts payable - trade and income taxes payable are all due within one year.

Spot foreign exchange transactions and derivative transactions are executed to reduce and manage the risk of exchange rate fluctuations arising from deposits and receivables, etc. denominated in foreign currencies. They include transactions such as forward exchange contracts, non-deliverable forward contracts and currency option contracts. These transactions are conducted by the Finance Department of the Company and the departments in charge of financial matters of its consolidated subsidiaries after securing approval from the President and Representative Director or the Executive Officer in charge within limits such as balance of foreign currency deposits during the period. The status of derivative transactions is reported to the Executive Officer in charge and the Board of Directors on a regular basis. Since counterparties of such transactions are limited to financial institutions that have high creditworthiness, Nintendo judges that risk due to default is minimal.

#### (3) Supplementary explanation regarding fair values of financial instruments

As variable factors are incorporated into the measurement of the fair values of financial instruments, the values may vary depending on the assumptions used. In addition, the contract amounts of the derivative transactions described in "Derivative transactions" do not represent the market risk of derivative transactions.

## 2. Fair value of financial instruments

The book value on the consolidated balance sheets, fair value, and differences between them are as follows. The presentation of cash and deposits, notes and accounts receivable-trade, notes and accounts payable-trade and income taxes payable has been omitted due to being cash, or as the settlement periods are short and the market values thereof are essentially equal to the book values.

Previous fiscal year (As of March 31, 2025)

### 3. Breakdown of Financial Instruments by Level of Fair Value

The fair value of financial instruments is classified into the following three levels based on the observability and significance of the inputs used to calculate fair value.

Level 1 fair values: Fair values calculated using (unadjusted) market prices in active markets for identical assets or liabilities

Level 2 fair values: Fair values calculated using directly or indirectly observable inputs other than those in Level 1

Level 3 fair values: Fair values calculated using significant unobservable inputs

When multiple inputs that may have a material impact on the calculation of fair value are used, the calculated fair value is classified at the lowest level of the inputs used.

#### (1) Financial assets and financial liabilities recorded on the consolidated balance sheets at fair value

(Note) Explanation of the valuation techniques and inputs used to calculate fair value

Short-term and long-term investment securities

Listed shares, Japanese government bonds, bonds, etc. are mainly valued using market prices. Because listed shares and some Japanese government bonds are traded in active markets, their fair value is classified as Level 1. The fair value of other securities and investment securities is classified as Level 2, because they are not considered to have market prices in active markets. If market prices cannot be obtained, fair value is calculated using valuation techniques such as the discounted present value of future cash flows, with inputs including swap rates, credit spreads and liquidity premiums.

Derivative transactions

The fair value of derivative transactions for which market prices are available for reference is classified as Level 1. The fair value of derivative transactions for which market prices are not available and that are valued based on the prices, etc., provided by financial institutions is classified as Level 2.

## Securities

## Retirement benefits

### 1. Summary of retirement benefit plans adopted

The Company has a corporate pension plan and a lump-sum severance payment plan which are defined benefit plans. Certain consolidated subsidiaries have defined contribution plans as well as defined benefit plans. The Company and certain consolidated subsidiaries may also pay extra retirement allowance to employees. Certain consolidated subsidiaries adopt a simple method to calculate retirement benefit obligation.

### 2. Defined benefit plans

#### (1) Reconciliation between beginning balance and ending balance of retirement benefit obligations (excluding those under plans in which a simple method is applied)

| Other                                                          | 298                                                               | 466                                                              | 2                     |
| Retirement benefit expenses for defined benefit plan           | 7,122                                                             | (5,761)                                                          | (36)                  |

(Note) Retirement benefit expenses of consolidated subsidiaries applying a simple method are recorded in "Current service costs."

(6) Plan assets

(i) Main components of plan assets

The ratios of components to plan assets by major category are as follows.

|                   | Previous fiscal year<br>(as of March 31, 2025) | Current fiscal year<br>(as of March 31, 2026) |
|-------------------|------------------------------------------------|-----------------------------------------------|
| Equity securities | 20%                                            | 21%                                           |
| Debt securities   | 63                                             | 60                                            |
| Other             | 17                                             | 19                                            |
| Total             | 100%                                           | 100%                                          |

(ii) Method for establishing expected long-term return rate on plan assets

In order to determine expected long-term return rate on plan assets, the present as well as expected future allocation of plan assets, along with the present as well as expected long-term rate of return on various assets comprising plan assets, are considered.

(7) Matters concerning the basis for actuarial calculation

The main calculation bases for actuarial gains or losses are as follows.

|                                               | Previous fiscal year<br>(From April 1, 2024<br>to March 31, 2025) | Current fiscal year<br>(From April 1, 2025<br>to March 31, 2026) |
|-----------------------------------------------|-------------------------------------------------------------------|------------------------------------------------------------------|
| Discount rate                                 | 2.1% to 5.4%                                                      | 3.2% to 5.7%                                                     |
| Expected long-term return rate on plan assets | 2.0% to 5.0%                                                      | 2.0% to 5.0%                                                     |

3. Defined contribution plans

The amount of contribution required for the defined contribution plans at certain consolidated subsidiaries was ¥5,965 million for the year ended March 31, 2025 and ¥6,731 million (USD 42 million) for the year ended March 31, 2026.

**Income taxes**

1. Significant components of deferred tax assets and liabilities

|                                                                | Previous fiscal year<br>(as of March 31, 2025) | Current fiscal year<br>(as of March 31, 2026) |                 |
|----------------------------------------------------------------|------------------------------------------------|-----------------------------------------------|-----------------|
| Deferred tax assets                                            |                                                |                                               |                 |
| Research and development expenses                              | ¥65,503 million                                | ¥73,198 million                               | USD 460 million |
| Revenue recognition for tax purposes                           | 32,175                                         | 43,606                                        | 274             |
| Unrealized intra-group profit and write-downs on inventory     | 8,106                                          | 22,729                                        | 142             |
| Accounts payable - other and accrued expenses                  | 17,951                                         | 21,015                                        | 132             |
| Excess depreciation of depreciable or amortizable assets       | 11,408                                         | 16,655                                        | 104             |

| Other                                                                                     | 0.1%                                           | (1.3)%                                        |
| Effective tax rate after tax effect accounting                                            | 25.1%                                          | 25.4%                                         |

### Asset retirement obligations

Information on asset retirement obligations was omitted as its amount is immaterial.

### Real estate for rent

Information on real estate for rent was omitted as its amount is immaterial.

## Revenue recognition

### 1. Breakdown of revenue arising from contracts with customers

The net sales of the Company group mainly comprise revenue recognized from contracts with customers. A breakdown of this revenue by goods, services and geographical region is shown below.

From the fiscal year ended March 31, 2026, due to the review of the Company group's internal management classifications, carried out in conjunction with the launch of new products, the previous categories of "Mobile and IP related income" and "Others" have been changed to "IP related income, etc." The information for the previous fiscal year for "1. Breakdown of revenue arising from contracts with customers" has also been presented based on the revised classification method.

Previous fiscal year (From April 1, 2024 to March 31, 2025)

(Millions of yen)

|                                  | Japan   | The Americas | Europe  | Other  | Total     |
|----------------------------------|---------|--------------|---------|--------|-----------|
| Dedicated video game platforms*1 | 237,177 | 477,804      | 280,621 | 87,931 | 1,083,534 |
| IP related income, etc.*2        | 37,704  | 37,326       | 5,122   | 1,234  | 81,388    |
| Total                            | 274,882 | 515,130      | 285,744 | 89,165 | 1,164,922 |

\*1 Includes net sales of hardware (including accessories and amiibo) and software (including downloadable versions of packaged software, download-only software, add-on content and Nintendo Switch Online).

\*2 Includes income from movies and videos, smart-device content, royalties and merchandise sales at official stores.

Current fiscal year (From April 1, 2025 to March 31, 2026)

(Millions of yen)

|                                  | Japan   | The Americas | Europe  | Other   | Total     |
|----------------------------------|---------|--------------|---------|---------|-----------|

(Millions of dollars)

|                                  | Japan | The Americas | Europe | Other | Total  |
|----------------------------------|-------|--------------|--------|-------|--------|
| Dedicated video game platforms*1 | 3,121 | 5,707        | 3,435  | 1,821 | 14,085 |
| IP related income, etc.*2        | 242   | 175          | 33     | 11    | 462    |
| Total                            | 3,364 | 5,882        | 3,468  | 1,832 | 14,547 |

\*1 Includes net sales of hardware (including accessories and amiibo) and software (including downloadable versions of packaged software, download-only software, add-on content and Nintendo Switch Online).

\*2 Includes income from movies and videos, smart-device content, royalties, and merchandise sales at official stores.

### 2. Information fundamental for an understanding of revenue arising from contracts with customers

Information fundamental for an understanding of revenue arising from contracts with customers is as presented in "V. Financial Information, 1. Consolidated financial statements, etc., Notes to Consolidated Financial Statements, Significant matters forming the basis of preparing the consolidated financial statements, 4. Accounting procedures, (8) Standards of accounting for significant revenue and expenses."

3. Information regarding the relationship between the satisfaction of performance obligations under contracts with customers and cash flows arising from such contracts, as well as the amount and timing of revenue from contracts with customers that existed at the end of the current fiscal year, which is expected to be recognized in subsequent fiscal years

(1) Balance of contract liabilities, etc.

Previous fiscal year (From April 1, 2024 to March 31, 2025)

(Millions of yen)

|                                                                          | Previous fiscal year<br>(from April 1, 2024<br>to March 31, 2025) |
|--------------------------------------------------------------------------|-------------------------------------------------------------------|
| Receivables arising from contracts with customers (as of April 1, 2024)  | 93,608                                                            |
| Receivables arising from contracts with customers (as of March 31, 2025) | 65,180                                                            |
| Contract liabilities (as of April 1, 2024)                               | 166,858                                                           |
| Contract liabilities (as of March 31, 2025)                              | 156,727                                                           |

Contract liabilities mainly consist of charged balances used for purchases of products and services on e-commerce websites operated by the Company group, advances received for undelivered portions of paid membership services or add-on content and advances received for transactions in which products are provided to software manufacturers.

Of the revenue recognized in the fiscal year ended March 31, 2025, ¥112,280 million was included in contract liabilities as of April 1, 2024.

Current fiscal year (From April 1, 2025 to March 31, 2026)

(Millions of yen)

|                                                                          | Current fiscal year<br>(from April 1, 2025<br>to March 31, 2026) |
|--------------------------------------------------------------------------|------------------------------------------------------------------|
| Receivables arising from contracts with customers (as of April 1, 2025)  | 65,180                                                           |
| Receivables arising from contracts with customers (as of March 31, 2026) | 147,485                                                          |
| Contract liabilities (as of April 1, 2025)                               | 156,727                                                          |
| Contract liabilities (as of March 31, 2026)                              | 185,008                                                          |

(Millions of dollars)

|                                                                          | Current fiscal year<br>(from April 1, 2025<br>to March 31, 2026) |
|--------------------------------------------------------------------------|------------------------------------------------------------------|
| Receivables arising from contracts with customers (as of April 1, 2025)  | 409                                                              |
| Receivables arising from contracts with customers (as of March 31, 2026) | 927                                                              |
| Contract liabilities (as of April 1, 2025)                               | 985                                                              |
| Contract liabilities (as of March 31, 2026)                              | 1,163                                                            |

Contract liabilities mainly consist of charged balances used for purchases of products and services on e-commerce websites operated by the Company group, advances received for undelivered portions of paid membership services or add-on content and advances received for transactions in which products are provided to software manufacturers.

Of the revenue recognized in the fiscal year ended March 31, 2026, ¥118,438 million (USD 744 million) was included in contract liabilities as of April 1, 2025.

(2) Transaction price allocated to remaining performance obligations

Previous fiscal year (From April 1, 2024 to March 31, 2025)

The Company group applies practical expediency and omits the presentation of transaction price allocated to remaining performance obligations for which the contract period was initially expected to be within one

year. The presentation of transaction price allocated to remaining performance obligations for which the contract period was initially expected to exceed one year is also omitted, as the total amount is not material.

Current fiscal year (From April 1, 2025 to March 31, 2026)

The Company group applies practical expediency and omits the presentation of transaction price allocated to remaining performance obligations for which the contract period was initially expected to be within one year. The presentation of transaction price allocated to remaining performance obligations for which the contract period was initially expected to exceed one year is also omitted, as the total amount is not material.

## Segment information, etc.

### Segment information

The main business of Nintendo is the development, manufacturing, sales, etc. of handheld and home game system hardware and related software. Development and manufacturing of products for worldwide use are primarily done by the Company while sales is done mainly by subsidiaries. Nintendo operates as a single operating segment with a single distribution channel and market for Nintendo's products and with each major subsidiary solely responsible for sales. Decision for allocation of the management resources and evaluation of business results are made on a company-wide basis, not on a product category or regional basis. Therefore, segment information is omitted.
